Report of The Minister of Education

1953

To The Honourable Louis O. Breithaupt, LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour,

May I respectfully submit to your Honour the following Report which gives in broad outline, as well as in some detail, pertinent information regarding the development of the educational system of Ontario during 1953. There are some phases of the service rendered by the Department of Education which seem to merit special consideration. These I should like to summarize briefly.

Special attention has been given to thorough instruction in the basic fundamentals of education—those skills with which every citizen should be familiar if he is to be equipped to make a good living and to live a good life. For this type of instruction there can be no substitute. Pupils must have plenty of hard work in school if they are to be qualified to undertake in adult life those difficult tasks which they confront as they travel the road to success. Boys and girls must learn that they owe a duty to the country in which they are privileged to live—a duty which can best be fulfilled by working as the pioneers worked, by having regard to the rights of their fellow-citizens, by striving to be strong, healthy, loyal, and religious men and women. Such citizens the schools of this Province are endeavouring, with a great measure of success, to produce.

Railway school cars, six of them, carry educational facilities to 159 children in Northern and Northwestern Ontario. Correspondence Courses are provided for children who, for any good reason, are unable to attend school. Boys and girls of school age who are unable to make much progress in the standard courses are provided for in Auxiliary Classes. Grants are available to Parents' Councils for the training of Retarded Children who cannot be taught in Auxiliary Classes. The Ontario School for the Deaf at Belleville has an enrolment of nearly 400 while the Ontario School for the Blind at Brantford has half that number of pupils. These facts are cited here to indicate that no child in the Province is overlooked in the provision of the type of education or training suitable to his needs.

The total number of pupils in the elementary and the secondary schools of the Province for the school year 1952-53 was 878,203 which was an increase of 64,116 over the enrolment of the previous year, an indication of the general expansion of Ontario; but no classroom was closed for lack of a teacher. Figures are given in the Report on the new buildings which were required to house the increased numbers. In addition, nearly 67,000 adults attended evening classes in the vocational schools and approximately 22,000 New Canadians studied Basic English and Citizenship in 843 evening classes.

The continuing interest which the adult population of the Province shows in education is significant and praiseworthy. In addition to the evening classes mentioned above, more than two hundred communities have organized cultural and recreational activities for their citizens. Assistance is provided by grants and advisory services and the training of directors and instructors. Attention has recently been directed to the problem of special programmes for the aged.

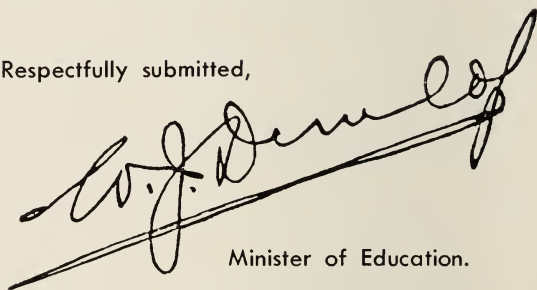

The Public Libraries of Ontario are meeting, in adequate fashion, another need in this field of adult education and recreation. For smaller communities and the rural areas boxes of books sent out by the Travelling Libraries Branch provide a useful supplement to the Public Library system.

Correspondence Courses, originally operated for children of elementary school age in isolated areas, have now been extended in scope to cover elementary and secondary school courses without restriction as to age or occupation of those enrolled. Members of the Armed Services, patients in Sanatoria, and inmates of Reform Institutions are being provided with courses to meet their special needs.

Realizing the need for preserving as many as possible of the relics of the history of the early years in Ontario the staff of the Provincial Archives is accumulating and systematizing a great quantity of original historical material. Acquisitions from Government departments and private benefactors and materials received on loan or by purchase will provide rich sources for the researches of future historians. Travelling exhibits of original documents, proclamations and maps are circulated to secondary schools for the enrichment of the study of history.

A glance at the following pages of this Report will amplify what I have been trying to point out—the diversity of the educational system of Ontario. Yet with all its ramifications there is an essential unity in the system since it concerns all the citizens of the Province and its one purpose is to provide facilities for the continuing development of an enlightened and industrious people.

Respectfully submitted,

A large, stylized handwritten signature in black ink, appearing to read 'W. J. D. Macdonald', written over a horizontal line.

Minister of Education.

October 27, 1954.

PART I
GENERAL

Elementary Education

LEGISLATIVE GRANTS

The plan for distribution of the general legislative grants was enlarged to incorporate the special grants formerly paid with respect to Auxiliary Classes and classes in Home Economics and Industrial Arts. A grant was paid equal to fifty percent of the amount expended by any board in the preceding year for the purchase of milk for consumption by pupils at school. With these exceptions the general legislative grant plan was similar to that of the preceding year.⁽¹⁾

LARGER UNITS OF ADMINISTRATION

Four new township school areas were formed in 1953 and six school sections were added to existing areas. In this move to larger units of administration 17 school sections were involved. At the same time 4 established township school areas were dissolved and 13 former school sections were re-established on their withdrawal from other larger units. At the end of 1953 there were 554 township school areas in operation, replacing 3,529 former school sections.

Two new union separate school boards were formed in 1953 and 2 separate schools were added to existing larger units. There are now 52 boards for union separate schools in operation, replacing 150 boards formerly administering schools.⁽²⁾

THE TEMPORARY CLOSING OF SMALL SCHOOLS

Thirty-five small rural schools were closed during 1953. Local boards of trustees felt action was necessary because of low enrolments and other local conditions, and arrangements were made to have the remaining children educated at a nearby school or schools. Thirteen schools were reopened during the year. At the end of 1953 there were 775 closed schools in the Province.⁽³⁾

TRANSPORTATION OF PUPILS

During the school year 1953-54 there was a further increase over the preceding year in the number of pupils transported by elementary school boards in Ontario. There were 33,925 pupils transported to elementary schools and 6,448 pupils transported to secondary schools. The increase in the number transported by elementary school boards to secondary schools was only 250 pupils, while the figure for elementary pupils is more than 6,000 higher than last year. A large portion of this increase may be attributed to the inclusion for the first time of pupils transported from schools temporarily closed because of low enrolment.⁽⁴⁾

RAILWAY SCHOOL CARS

During the year 1953 the six Railway School Cars in Northern Ontario brought educational facilities to a total of 159 children who live in isolated homes too far from regular schools to permit daily attendance. These pupils were enrolled at twenty-six stops made by the six cars, one on the Ontario Northland, two on the Canadian Pacific, and three on the Canadian National Railways.

⁽¹⁾ The Regulations for General Legislative Grants are reprinted on pp. 37—54. See also p. 58

⁽²⁾ For tables see p. 91

⁽³⁾ For tables see p. 92

⁽⁴⁾ See also p. 9, and tables p. 90

SCHOOL HEALTH

A public or separate school board is empowered under statutory provisions to enter into an agreement with the local Board of Health to provide school health services. Provision of these services by the board itself is statutory only where such provision "was inaugurated by the board prior to the 31st day of July, 1924". Thus, health services in the great majority of elementary schools are now under the Public Health authorities.

The Departments of Education and of Health continue to co-operate with regard to the provisions in new school construction for drinking-water supply and sewage disposal. The co-operative arrangements require approval of these facilities by the Department of Health as a prerequisite to approval of the project as a whole by the Department of Education for grant purposes.

The work of the public health nursing, medical and dental staffs in the elementary schools is appreciated by school authorities. The accommodations required for their work are provided by the school board. Helpful suggestions from various voluntary organizations interested in health are appreciated in the school health programme in our schools. Particular mention may be made of the Junior Red Cross and the Health League of Canada.

As a contribution to healthful nutrition, the Department of Education pays a grant to an elementary school board of 50 percent of the cost of the purchase of milk for consumption by its pupils at school.

NEW CONSTRUCTION

In 1953 the volume of elementary school construction exceeded that of the previous year, a trend which has persisted since 1945. In 1953 new accommodation was provided for 44,390 pupils at an estimated cost of \$31,806,000. During the period 1945 to 1953 inclusive, new accommodation has been provided at a cost of \$137,406,000 for 206,430 pupils, while the increase in enrolment has been 239,300 pupils.⁽⁵⁾

CURRICULUM PLANNING

In the summer of 1953 four workshops were conducted by the Department of Education. One in Social Studies, held at the University of Western Ontario, had for its particular problem the improvement of the teaching of Geography and History. At a workshop in English, held at Toronto, the improvement of the teaching of this subject was discussed, and particular attention was given to Reading and English Composition. A conference on Health Education was directed by the staff of the Physical and Health Education branch of the Department at the Ontario Athletic Training Camp near Orillia. A workshop in Conservation was held for the fourth consecutive year at the Ontario Forest Rangers School, Dorset, and in this workshop other Provincial Departments co-operated.

The number of conferences, short courses and workshops initiated and sponsored by the Ontario Teachers' Federation and its affiliates is evidence of the keen interest of the teachers of Ontario in the improvement of the work of the schools. A curriculum conference attended by teachers, trustees, and lay people from the Province at large was held in Toronto in October. This was the third such meeting sponsored by the Ontario Teachers' Federation. A curriculum conference dealing particularly with problems of the separate schools, initiated and conducted by the Ontario English Catholic Teachers' Association, was held in November. Similar conferences are planned for the autumn of 1954. A short course for school principals, organized and conducted by the Ontario Men Teachers' Federation, was held at Queen's University during the month of August. A conference dealing

⁽⁵⁾ See also p. 9

with Mental Health in Schools was held in London, Ontario, in February, and a short course in Visual Education, widely attended, was provided in Toronto in the month of October. A workshop for teachers of Home Economics, organized independently by a committee of teachers of Home Economics, was held at Guelph in the last week of June. In these praiseworthy efforts the teachers have had the support of the Department of Education and officials of the Department and members of the staffs of the Teachers' Colleges have participated freely in the meetings.

Throughout the year discussions between elementary and secondary school teachers took place in various centres. These were arranged by local Co-ordinating Committees. Of particular note were the series of such discussions in the inspectorates of Centre Hastings and Durham West. The chief problems dealt with were the transition from the elementary school to the secondary school and improvement in teaching the fundamental subjects. Other courses for teachers, dealing with Conservation and Map Reading, have been arranged by a number of local inspectors.

Local curriculum committees throughout the Province have worked on experimental courses in various subjects adapted to local needs. The primary function of the elementary school is to ensure the literacy of its scholars and attention has been given chiefly to plans for increasing the effectiveness of the teaching of English. Other subjects have not been neglected. A number of experimental courses in the Social Studies have been drawn up and these have provided for a strengthening of the teaching of Geography. The teachers have been somewhat handicapped by the scarcity of good text-books in this field but it is expected that this difficulty will soon be overcome.

TEXT-BOOKS

At present no text-books are authorized by the Department, but, from Grades I to X, approved lists, offering a number of choices, are issued each year. From these lists boards and teachers may select the books which appear most suitable for their needs. It is the policy of the Department to require, wherever possible, that text-books for inclusion in approved lists be of Canadian authorship, illustrated by Canadian artists, and printed and published in Canada. This policy, which has the support of Canadian publishers, has been amply justified by the number and quality of the books that have been published or are in preparation.

Particular attention has been given to securing the best available books for the teaching of Reading. New readers have been approved for use in the separate schools and greatly improved readers are in preparation for use in the schools in which French is a subject of instruction with the approval of the Minister.

Under the regulations, school boards are required to provide all text-books for pupils in Grades I to VIII. The parents of the pupils in these grades are therefore put to no direct expense for the purchase of text-books. Books do not become the property of the pupils, but are retained in the school and may be used for several years. It is estimated that, on the average, they will have to be replaced every three years, but the period of use of many books should be longer than that.

The retail cost of a typical set of text-books for a Grade VI pupil during the year 1952 might have been as much as \$13.90; and, if books were not provided by boards, a parent might have to face this considerable outlay; but, by taking advantage of the discount allowed by publishers, a board could buy the same books for \$11.00. If the books have an average life of three years the cost per pupil per year for this set would be \$3.66, but if the books last longer than this the annual cost would be further reduced.

The Department of Education makes a reimbursement grant of \$3.00 a pupil to boards yearly for expenditures for the purchase of text-books. Returns for the calendar year 1952 showed that reimbursement grants claimed by boards amounted to \$2.72 a pupil (grant paid in 1953). That the whole available grant was not claimed in that year may be explained by the fact that many boards

Courtesy S. B. Coon & Son, Architects

SUTTON PUBLIC SCHOOL

Courtesy Barnett & Rider, Architects

GEORGETOWN HIGH SCHOOL

had built up stocks of text-books before the reimbursement grant came into effect, and by the lack of suitable books, worthy of approved listing, in some subjects. It is probable that the whole of the \$3.00 grant will be claimed for 1953 and that the actual expenditure made by boards in 1952 may even exceed the \$3.00 grant.

It is interesting to note that in 1952 the cost of text-books was 1.5 percent of the total cost of education in Ontario for Grades I to VIII, as shown by the Report of the Minister for the year 1952.

RELIGIOUS EDUCATION

The course in Religious Education, instituted in 1944, continues to be successfully carried out and the publishers of the Teachers' Guides to Religious Education report an increased demand for the books. This increase is related, in part, to the increase in the number of classrooms. In the school year 1944-45 sixty-three boards asked for exemption from the teaching of Religious Education and twenty-one exemptions were requested in the school year 1952-53.

CEA-KELLOGG PROJECT

As a result of a proposal made in December, 1951, by the Canadian Education Association to the W. K. Kellogg Foundation of Battle Creek, Michigan, the sum of \$230,282 was made available over a five-year period for an in-service improvement programme, for inspectors and local school superintendents in Canada, to be known as the CEA-Kellogg Project in Educational Leadership. The project will provide a programme designed to improve the training and further the development of educational leaders in the supervision and administration of local school systems.

For one week during April, 1953, five inspectors from Ontario met with a like number of representatives from Quebec in one of three regional workshops which were organized across Canada. This workshop served as a preliminary to the pilot short course which was held for three weeks in May, 1953, at the University of Alberta in Edmonton and which was attended by 48 inspectors and local superintendents from across Canada. Ten of these came from Ontario and five of the ten had already attended the Ottawa regional meeting.

Delegates to each of the courses believe that the opportunity to meet and work with educational leaders from other parts of Canada has been of value in terms of a greater understanding of the problems and difficulties encountered by educational authorities across the Dominion. It has done much to overcome many misunderstandings about different parts of the country, and has suggested ways of working together for the ultimate benefit of boys and girls in the classrooms. While it is too early to make any final judgment about the benefits to be derived, the project gives promise of making an important contribution to the improvement of educational leadership in Canada.

ADMINISTRATION

In 1953 an Act was passed to provide for the federation of the municipalities in the Toronto Metropolitan Area for certain financial and other purposes. The bill provided for a Metropolitan School Board composed of the chairmen of each of the Boards of Education in the thirteen municipalities, the member securing the highest vote in each of the wards in the City of Toronto, and two members appointed by the Separate School Board.

The Metropolitan Board of Education is to make maintenance assistance payments to the member boards, based on the average attendance of resident pupils. The current revenue of the Metropolitan Board consists of a tax levied on the ratepayers in the Metropolitan Area and the general legislative grants formerly payable to the member boards. Outstanding capital debts and new issues of debentures, up to the amount approved by the Department of Education

for legislative grant purposes, are spread over the entire area. The building programmes of the member boards are reviewed and consolidated by the Metropolitan Board.

The Act also provided for a Board of Education for each of the Townships of North York and Scarborough. These boards replaced the boards for former school sections, township areas and secondary school districts in these townships.

An Act was passed respecting Separate School Boards in the Metropolitan Area of Toronto, which provided for a Metropolitan School Board to replace the Toronto and Suburban Separate School Board.

Secondary Education

1. SECONDARY SCHOOLS

ENROLMENT

There were 109,272 pupils enrolled in academic secondary schools in 1952-53 and 32,649 in vocational schools, making an increase in the secondary school population of nearly eight thousand pupils. In addition, the enrolment in evening classes in the vocational schools amounted to 66,955, an increase of nearly three thousand over that of the preceding year.

TRANSPORTATION

Secondary school boards provided transportation for 34,881 of their pupils at a daily cost of just over \$17,000. There were 1,403 routes in operation with a total daily mileage of 61,543 miles. In addition, elementary school boards provided conveyance for 6,198 secondary school pupils.⁽⁶⁾

BUILDING PROGRAMME

Fourteen new secondary schools were completed during 1953 at a cost of approximately \$8,000,000, providing accommodation for 5,250 pupils. These new buildings were constructed at Cannington, Cooksville, Dresden, Etobicoke (Royal York Road), Flesherton, Haliburton, Hawkesbury, Kingsville, Leamington, Lucknow, Mount Forest, Terrace Bay, Thornbury, York Township (Coronation Square).

Additions or alterations made to twenty-nine existing buildings at a cost of approximately \$9,000,000 provided additional accommodation for 5,400 pupils.⁽⁷⁾

THE MODERN DISTRICT HIGH SCHOOL

A typical District High School, the result of the reorganization of a school area, and the product of a well-planned building programme, may be described in general terms which would apply to a number of modern schools in Ontario. Its territory probably covers about 400 square miles and it is administered by an appointed board representative of all the municipalities served, all of whom have an equity in the school property. It has a comprehensive system of transportation of pupils by bus, together with adequate lunch-room facilities in the school building. Modern and attractive accommodations, usually on one floor, include well-lighted and acoustically treated classrooms, and special rooms for subjects such as Music, Art, Commercial work, Home Economics and Industrial Arts, and a gymnasium-auditorium. For a curriculum it offers, within the framework of the General Course, the required subjects of English, Social Studies, and

⁽⁶⁾ See also p. 3, and tables p. 90

⁽⁷⁾ See also p. 4

Physical Education, the traditional options of Latin, French, Mathematics, and Science, and such of the more recently introduced optional subjects as are suited to the needs of the community. In addition, a district school quite often offers a commercial course as distinct from the commercial option in the General Course.

Because of the attractions offered by a modern building, an improved salary schedule, a larger staff and a somewhat bigger community, the district school tends to attract more capable teachers and to hold them longer. There is an opportunity also for the individual member of the staff to teach those subjects in which he is best qualified and most interested; this in turn raises the general level of instruction.

Finally the district school gives an opportunity to the rural pupils to participate in intramural activities not usually available in most small schools. During the noon hour or in a special activity period they can now share in the varied programme of co-curricular activities customarily available only to urban pupils.

GRANTS

General legislative grants paid to academic secondary schools in the fiscal year 1952-53 amounted to \$14,146,876 and to vocational schools \$4,303,659.⁽⁸⁾

Under the Vocational Schools Assistance Agreement the Government of Canada pays a grant equal to Provincial expenditures in grants for maintenance up to a fixed maximum of \$597,500, and also makes an allowance toward capital expenditures for buildings and equipment equal to fifty percent of the Provincial allowance for these purposes. Under this agreement a payment of \$1,076,538.37 was received on account of capital expenditures, while the Provincial expenditures were far in excess of the amount required to qualify for the maximum grant under the maintenance clause.

CURRICULUM

English, Social Studies and Physical Education are compulsory subjects in all courses of Grades IX to XII. Within the framework of suggested courses there is a wide choice of optional subjects which may be provided in various combinations to meet local needs. The Department of Education fixes the content of subject courses for Grades XI and XII and for the examinations of Grade XIII, while schools are free to adopt suggested courses for Grades IX and X or to prepare their own courses. Examinations for Grades IX to XII, as well as for admission to Grade IX, are a purely local concern.

The vocational schools maintain close contact with the leaders of commerce and industry in their immediate localities, not only for placement and follow-up of their pupils but also to keep their courses and methods of instruction in harmony with local needs and conditions. In this work the co-operation of organized bodies such as the Canadian Manufacturers' Association, the National Office Management Association, Boards of Trade and Chambers of Commerce, is freely given to the schools. Under the sponsorship of these organizations co-operative training plans have been initiated in a number of centres, and the evaluation of the results, arrived at jointly by the school and the sponsoring organization, is of great value in maintaining effective liaison between education and industry.

TEACHERS

There were 6,131 full-time teachers employed in secondary schools during the year 1952-53. Most of the schools were adequately staffed with certificated teachers, though in some branches of vocational education there were shortages of properly qualified instructors. Summer courses conducted by the Department of Education have done much to offset this deficiency. In addition to the regular summer courses in commercial subjects, industrial arts, home economics and agri-

⁽⁸⁾ See also pp. 3 and 58

culture, a special emergency course was provided to enable prospective teachers of industrial subjects under contract to school boards to begin a qualifying course. The forty-six teachers who enrolled in this course may, in three summer sessions, proceed to full qualification as teachers of shop subjects in vocational schools.

Teachers continue to undertake a wide variety of professional activities, such as the evaluation and development of courses of study, regional conferences and workshops in special subjects, the preparation of periodicals and text-books, summer courses and graduate studies. Individual and group activities of this kind are most heartily to be commended, since they lead not only to improved curricula and increased professional competence, but ultimately to an improved standard of education for the whole Province.

2. TECHNICAL INSTITUTES

Since the close of World War II, several Technical Institutes have been established to provide post-secondary education with specialization in a number of technological fields. Through Advisory Councils close co-operation is maintained with industry and courses are revised constantly in the light of the latest advances. Extensive evening class facilities provide opportunity for regularly employed workers to improve their training and skills.

LAKEHEAD TECHNICAL INSTITUTE

The Lakehead Technical Institute at Port Arthur operates in three divisions. The Technical division offers two-year terminal courses with extensive field training in Forestry and Mining. The University Division offers the first year of Arts, Applied Science, Commerce, Forestry, Forest Engineering, and Household Science courses. Students complete their courses at universities of their choice. The special division offers academic courses at post-secondary level in a night school programme.

PROVINCIAL INSTITUTE OF MINING

The Provincial Institute of Mining at Haileybury continues to serve Canada's mining industry by providing trained technical personnel for engineering and survey departments of mines, for geological staffs, and for mill, mine and smelter laboratories.

PROVINCIAL INSTITUTE OF TEXTILES

This school at Hamilton provides both day and evening classes in technical aspects of the textile industry. Its students are drawn from cities and towns in its surrounding area where textile factories operate, and the demand for graduates still exceeds the supply. The industry continues to help the Institute by contributions of machinery and raw materials and by assistance to students.

PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades at Toronto provides training for trades designated by the Department of Labour under the Apprenticeship Act, for a few non-designated trades and for certain special requirements of the Royal Canadian Air Force in Telecommunications.

RYERSON INSTITUTE OF TECHNOLOGY

A large proportion of the day enrolment of this school is drawn from outside the Toronto area. Courses are offered in a wide variety of technical fields. Most of the courses are of three years' duration and require the Ontario Secondary School Graduation Diploma (Grade XII standing) as a prerequisite. There are also evening classes which attract an enrolment in excess of four thousand.

3. SPECIAL PROJECTS UNDER FEDERAL-PROVINCIAL AGREEMENTS

1. General

The Department of Education, Ontario, and the Department of Labour (Canadian Vocational Training), Ottawa, are co-operating in special types of training programmes. The extent of the Federal reimbursement, depending on the agreement, varies from 50% to 100% for such programmes.

(a) Rehabilitation of Disabled Persons

Disabled persons over sixteen years of age may be approved for suitable training for a maximum period of twelve months. Tuition, books, and some transportation charges are paid by the Ontario Government.

(b) Royal Canadian Air Force—Project No. 2

Special arrangements have been made with the R.C.A.F. whereby up to 120 R.C.A.F. personnel are being trained in Telecommunications at the Provincial Institute of Trades.

2. The Defence Training Board

This Board was set up at the request of the Department of Labour, Ottawa, for the purpose of hiring and paying civilian instructors for the Air Force and the Army. The Services concerned have representation on this Board. At the present time 60 teachers are in the employ of the Board.

3. Supervisory Training

The Department of Education has recently developed a programme of assistance to industry which is generally known as "Supervisory Training Services". These services, popular and effective during the World War II period, have been modified to meet the needs of present-day industrial development.

Professional Training

TEACHERS' COLLEGE ENROLMENT

A decrease occurred in the enrolment of the colleges for the professional preparation of teachers in the school year 1953-54. The eight Teachers' Colleges had an enrolment of 1,732, representing a decrease of 141 when compared with the total for 1952-53. Eighty-four students taking the elementary school option at the Ontario College of Education brought the total number of candidates for teaching certificates valid in elementary schools to 1,816. Included in the enrolment of the Teachers' Colleges were 314 students in the first year of the Two-year Course.

The Ontario College of Education had a total enrolment of 470 in courses leading to the High School Assistant's, Library, Home Economics, Vocational, and Industrial Arts certificates. This figure was 18 below that of the previous year.⁽⁹⁾

COURSES OF STUDY

The reorganization announced in 1952 of the system of preparing teachers for the elementary schools established three courses leading to the Interim First Class certificate. The first is the One-year Course for candidates holding standing in eight Grade XIII papers including at least one English paper; the second is the Two-year Course for applicants holding the Secondary School Graduation Diploma of the General Course, at the Grade XII level; and the third is the one-year Completing Course for students who have been successful at the Pre-Teachers'

⁽⁹⁾ For tables see p. 64

College Summer Courses, First and Second Years, and who have taught successfully for two years on a Temporary certificate in the public or separate schools of Ontario.

The Two-year Course, the first year of which was introduced in September, 1953, combines academic and professional study. The academic subjects are English, Geography, History, Child Psychology, and Educational Psychology. The professional programme offers the subjects of the One-year Course but provides double the practice work in urban and rural schools. Several supplementary courses—History of Education, the School and The Community, Audio-visual Education, and Children's Literature—complete the programme.

In addition to the three courses mentioned leading to the Interim First Class certificate, three specialized courses were offered at the Toronto Teachers' College during the year under review: the Primary School Specialist Course which prepares teachers for the junior and senior kindergartens and for Grades 1 and II; the Intermediate Art Certificate Course, which may be taken at the Teachers' College during the same year as the First Class course by graduates of the Two-year Course in Art for Prospective Teachers at the Ontario College of Art; and the Intermediate Home Economics Certificate Course, which may be taken at the Teachers' College during the same year as the First Class course by graduates of the Two-year Course in Home Economics at the Ryerson Institute of Technology. Thirty-three students were enrolled in the Primary School Specialist Course, seven in the Home Economics Course, and two in the Art Course during the school year 1953-54. The course leading to the Intermediate Home Economics Certificate was first offered in 1952-53, and the special Art Course was introduced in 1953-54.

CHANGE IN NAME

"Normal School" was the name applied by Dr. Egerton Ryerson to the first institution established in the Province for the preparation of teachers. "The word **Normal** signifies 'according to rule or principle'," he explained at the opening ceremony of the provincial Normal School in Toronto on November 1, 1847, "and is employed to express the systematic teaching of the rudiments of learning". A century passed, but the reason for using this common word in an uncommon sense continued to escape the general public. In 1953, the Legislature amended the Department of Education Act, and substituted the words "teachers' college" for "normal school". With the opening of the school year in September the new name came into use.

TEACHER SUPPLY

Except in the fields of commercial subjects, girls' physical education, home economics, and vocational shopwork, the supply of teachers for secondary schools was adequate during 1953-54. Where certificated teachers were not available for the fields named, letters of permission were issued authorizing Boards of Trustees to employ persons with special qualifications although without professional training.

In September, 1953, there were 52,524 more pupils in the elementary schools in Ontario than in September, 1952. A total of 1,480 additional teachers was required to cope with this increase. Statistics related to live births and immigration indicate that similar rises in annual enrolment may be expected for some years to come. The unusually heavy demand for teachers is being met from three sources: (i) newly qualified teachers graduating from the Teachers' Colleges and Pre-Teachers'-College Summer Courses, (ii) married women, certificated as teachers, who are returning to, or who are being retained in the profession, and (iii) teachers who come to Ontario from other educational systems.

The recent reorganization of the system of preparing teachers for elementary school is designed to increase the enrolment in the Teachers' Colleges and preliminary summer courses by securing teachers not only from Grade XIII graduates but also from the larger group of students completing Grade XII. The employment

of married women as teachers is now so general that some third or more of women teaching in the elementary schools are married.

During 1952 the terms upon which teachers of acceptable training and academic background from Great Britain and other Provinces in Canada might be certificated in Ontario were revised. These teachers were issued letters of standing valid for teaching for one school year, at the end of which period the candidates were required to write the final examination of a Teachers' College in Ontario. Persons successful at the examinations then received teaching certificates. In 1953 the requirement that such teachers pass the examinations of a Teachers' College was withdrawn, and the holder of a letter of standing was issued a teaching certificate upon the completion of one year of successful teaching in Ontario as certified by the inspector concerned. It should be noted that all applicants for letters of standing are required to pass a medical examination.

During the calendar year 1953 a total of 269 letters of standing were issued to teachers for elementary schools. By December, 1953, the number of letters of permission issued to Boards of Trustees for the employment of uncertificated teachers during the school year 1953-54 totalled 682. Of this number 330 were issued for persons having training as teachers and 352 were for persons with no professional training.

Schools Attended by French-speaking Pupils

TEACHER-SUPPLY

In 1952-53 there were 143 teachers-in-training at the University of Ottawa Normal School, 23 of whom were enrolled in the First Class course and 120 in the Second Class course. As a result of the term and final examinations 23 students were awarded First Class certificates, and 105 obtained Second Class certificates.

There were in this school year 1,957 French-speaking teachers employed in the elementary schools. Of this number 1,648 or 84.2 percent held First or Second Class certificates.

SECONDARY SCHOOL CLASSES

The total enrolment of French-speaking students taking advanced French courses in secondary schools was 2,820.⁽¹⁰⁾

To give a more complete picture of the secondary school enrolment it should be added that besides the 2,820 students reported above there were 1,923 French-speaking pupils enrolled in Grade IX and Grade X classes of elementary schools and 2,122 French-speaking students attending inspected private secondary schools in Ontario. Inspected private schools may, on the recommendation of the Inspector, qualify for certain privileges in reporting the standing of their pupils.

ELEMENTARY SCHOOLS

There were 59,576 French-speaking pupils enrolled in June, 1953, in separate and public elementary schools, an increase of 2,083 over the preceding year. The total of 59,576 includes 1,923 students in Grade IX and Grade X classes in elementary schools, and 211 pupils in auxiliary classes.⁽¹¹⁾

⁽¹⁰⁾ For table see p. 105

⁽¹¹⁾ For tables see p. 102

June, 1953, completed the eleventh school year in which correspondence courses for French-speaking children of Ontario were given by the Department of Education. All the courses for pupils of Grade I to Grade VIII have been available since September, 1946.

A revision of the courses for the Primary and Junior Division (Grades I to VI) was partly completed during the year. Enrolment figures are shown in Part IV of this report.⁽¹²⁾

Agriculture

The regulations of the Department of Education provide for instruction in Agriculture as an optional subject in the elementary and secondary schools of the Provincial system.

ELEMENTARY SCHOOLS

Special grants for agricultural instruction in elementary schools were discontinued in 1953. Instead of the usual report forms a survey questionnaire was sent out through the inspectors in September, 1953. Returns showed that out of 4,994 rural and 1,115 urban schools reporting Agriculture was taken for at least one hour a week in 876 rural and 157 urban schools. Agriculture as a part of Science teaching, usually from topics suggested in Curriculum I:1, was taught in 3,419 rural and 671 urban schools. Replies to the questionnaire also indicated that 1,768 teachers possessed some qualification in Agriculture, 1,485 the elementary and 168 the intermediate certificate, and 115 had completed at least one summer course.

School ground improvement as a school activity was reported by 1,536 schools, mostly rural. School Fairs were held in 236 schools under local committees, and 1,817 schools, or their pupils individually, sent exhibits to local Fall Fairs.

SECONDARY SCHOOLS

Instruction in Agriculture is provided in secondary schools in two ways. Courses in Agricultural Science, optional with General Science, and with agricultural topics included in the Science courses, are taken by 34,000 pupils in Grades IX to XII in 140 schools and in Grades IX and X in 39 schools. Alternatively, schools may organize departments of Agriculture and provide programmes of instruction which include Agriculture and Shop Work for boys and Home Economics for girls. There are 92 schools with this type of organization and 29 of them carry the courses on into Grades XI and XII. The number of pupils taking Agriculture is 7,800. Schools with departments of Agriculture provide extra services such as visits to the homes of pupils by principal or teacher during the summer months, school meals and the use of the school as a community centre.⁽¹³⁾

Grants formerly paid to boards as special subsidies for Agricultural instruction were in 1953 incorporated in the general legislative grants.

TEACHERS SUPPLY

Teachers with qualifications in Agriculture are either graduates of the Ontario Agricultural College who have attended the Ontario College of Education or certificated teachers who have attended one or more summer courses in Agriculture. Seventy-three teachers attended summer courses in 1953. All schools with

⁽¹²⁾ For table see p. 175

⁽¹³⁾ For tables see p. 173

departments of Agriculture have qualified teachers. A few teachers, mainly in the smaller schools, are teaching Agriculture by special permission.⁽¹⁴⁾

PRACTICAL WORK

The basic or minimum requirements for Agricultural Science include instruction in the laboratory or classroom, gardening, where an area is available, and inspection of home projects. In many schools special facilities include a poultry house, one or more colonies of bees, and an area for gardening and experimental plots. There may be participation by the pupils in 4H Club projects in co-operation with the Agricultural Representative, and home projects organized and inspected by the teacher. During the last two years pupils have taken part in local ploughing matches, and in the International Ploughing Match in which 23 schools were entered in 1953.

Art

RESEARCH

A research project dealing with Art Education During Adolescence has been in progress during the past five years. A summary of the findings is now being made, and will appear in pamphlet form as soon as possible.

Saturday morning classes conducted for the purpose of studying children of outstanding ability in Art were held at the Ryerson Institute of Technology from October to March, inclusive.

SUPERVISION AND TRAINING

The teaching of Art in the secondary schools was given special attention during the year. All the schools at which general inspections were held were visited and their Art programmes evaluated.

The summer courses in Art were well attended, and more than four hundred teachers qualified for elementary, intermediate, supervisor's or specialist's certificates. Meetings of elementary teachers of Art have been held throughout the year in several inspectorates.

Audio-visual Education

SCHOOL BROADCASTS

A programme of ninety-three Ontario school broadcasts covering fifteen different school subjects was prepared for use in the elementary and secondary schools of the Province. These broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of twenty-six radio stations.

Classroom teachers were used as radio consultants for several series of broadcasts. It is believed that this policy was responsible for an improvement in the educational value of the broadcasts.

Evaluation surveys of the effectiveness of the broadcasts were made during the year. Constructive comments were received as a result, and improved planning for succeeding broadcasts was made possible.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September.

⁽¹⁴⁾ For table see p. 174

FILM SERVICE

Films from the Audio-Visual Education Library were shown on 164,127 occasions to a total school audience of 8,606,012 students. Eighty-two new film titles were approved as additions to the library, and 974 additional prints of films already listed in the Visual Education catalogue were purchased. During the year, forty-seven schools registered new film projectors with the library for film service. The Audio-Visual Branch now has 6,901 prints of sound films available for use in Ontario schools.

FILMSTRIPS

Lists of recommended filmstrips for elementary and secondary schools were prepared by Ontario teachers enrolled in the Audio-Visual Education course, and distributed by the Audio-Visual Education Branch to Ontario schools on request.

PUBLICATIONS

A supplement to the Visual Education catalogue was prepared and forwarded during the year to all Ontario schools using the film service of the Audio-Visual Education Branch.

Auxiliary Education

During the last twenty-five years there has been a gradual recognition of the obligation of the school to young people of school age who are from physical or mental cause unable to take proper advantage of the elementary or secondary school courses. This is most encouraging, as it indicates a desire to educate handicapped people to become self-reliant. The tables on p. 000 indicate the extent and variety of auxiliary classes in the Province.

SERVICES

An interesting addition to the services provided for various groups of handicapped children was made in 1953 in South Wellington inspectorate. A group of township school areas and school sections combined to employ a remedial teacher who could visit the children in these rural units at least once each month to provide direction and leadership for the classroom teacher. The teacher has had under his supervision and instruction 153 children in 57 classrooms, and has been very successful in collaborating with the classroom teachers in graded and one-roomed schools. The children who have shown the most striking progress are the fifteen-year-old boys who were in a state of boredom and frustration and a group of children with defects of speech. In reading, spelling, and arithmetic there is definite evidence of correction of errors, of the elimination of habits of faulty thinking, recall and computation, and the resulting improvement in achievement.

As a result of the remedial teacher's guidance and assistance, regular teachers are getting results and satisfaction with pupils who previously made little progress. The classroom teachers are adapting successfully special techniques for individual instruction to class instruction and to the teaching of small groups.

TEACHER SUPPLY

Teachers of auxiliary classes are drawn from the regular teaching staffs. They are individuals who have taught successfully for at least two years in a public or separate school in Ontario and qualified for certificates in Auxiliary Education by attending summer courses. In the summer of 1953, 226 teachers took courses leading to certificates in this field.

RETARDED CHILDREN

By authority of an Act of the Legislature in 1953, and subsequent regulations, provision was made for assistance in the payment of the cost of education of children under eighteen years of age, whose mental capacity is incapable of development beyond that of a child of normal mentality at eight years of age. Grants were provided for classes conducted by parents' groups which are affiliated with the Ontario Association for Retarded Children. In 1953 a grant of \$250 a year for each pupil of average daily attendance was paid to parents' groups located in Barrie, Brantford, Hamilton, Kirkland Lake, London, Niagara Falls, Peterborough, Toronto, Waterford, Welland and Windsor. In December, 1953, there were 260 pupils enrolled in these classes.

Correspondence Courses

COURSES

At the elementary school level courses are provided for both English and French-speaking pupils in all the subjects of Grades I—VIII. Some courses are also provided for adults. At the secondary level the available courses include English, French, Mathematics and Science in Grades IX to XIII.⁽¹⁵⁾ New courses are added from time to time and revisions are continually being made.

ENROLMENT

All the courses are free, and they are being made available to more and more people. At first only children living in Ontario who were for any reason unable to attend regular classes were eligible. In 1953 more than half of those enrolled were over the compulsory school age. There were 880 pupils taking elementary school courses and 856 in secondary school courses.⁽¹⁶⁾

Courses were sent in 1953 to personnel in the Canadian Armed Services on duty outside Canada and their dependents, and to Ontario residents temporarily living in other provinces or abroad. Patients in sanatoria were enrolled for secondary school lessons under special arrangements. In addition sets of lessons were sent out as teaching aids for Grades I to X, to some unqualified teachers and to assist the educational programmes in sanatoria, penitentiaries and reformatories.

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade XIII and the Normal School examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas, will be found in Part II of this Report.⁽¹⁷⁾

STUDENT-AID

(a) Dominion-Provincial Student-Aid Bursaries.

The purpose of these bursaries is to assist students of adequate ability who are financially unable to continue their education. In 1943-44 when the first scholarships were established 192 applicants were awarded a total of \$45,950.

⁽¹⁵⁾ For tables see p. 175

⁽¹⁶⁾ For tables see p. 175

⁽¹⁷⁾ For tables see p. 126

In 1952-53 a total of 1,536 students received bursaries totalling \$316,461. The contribution of the Government of Canada to the bursary programme has increased from \$31,974 in 1944-45 to \$100,000. In the same period the Provincial contribution has increased from \$100,000 to \$316,461.⁽¹⁸⁾

(b) Transportation Assistance.

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and are enrolled in an eligible institution of university rank have now been in operation for seven years. In 1953 the sum of \$11,370.45 was paid in transportation assistance to 558 students. Of these 227 reside west, and 331 east of Sault Ste. Marie.

(c) Scholarships for Post-graduate Study in France.

The Department of Education Act provides for the payment out of the Consolidated Revenue Fund annually of the sum of \$6,000 to be awarded by the Minister of Education in scholarships to residents of Ontario for the purpose of enabling them to pursue courses of study in France. For the school year 1953-54 the holders of these scholarships were Miss Rita M. Hanlon, Collegiate Institute and Vocational School, Weston; Miss Pauline J. Bondy, Hon. W. C. Kennedy Collegiate Institute, Windsor; Miss Mary Stortz, Collegiate Institute and Vocational School, Kirkland Lake; Miss Wilhelmina M. Wiacek, High School, Port Colborne.

INTERCHANGE OF TEACHERS

Interchange of teachers is encouraged as a means of maintaining Commonwealth unity, of promoting national and international good-will and understanding, and of broadening teachers' interests and their knowledge of educational methods.

For the school year 1953-54 twenty-nine exchanges were arranged, twenty-one with the British Isles, seven with other provinces, and one with the United States.

Guidance

Schools are encouraged to adapt their guidance courses and services to the needs of the pupils and to integrate them into the regular school programme. This philosophy of guidance as an essential service for the pupils is applied in all relations between the schools and the officials of the Guidance branch of the Department of Education. Visits made to the schools provided opportunities to improve the guidance services by conferences with principals and guidance workers.

TRAINING

One hundred and two teachers attended the summer courses offered by the Department of Education and leading to the Elementary, Intermediate, and Specialist certificates in Guidance. The need for trained guidance workers is still great in the smaller secondary schools and in the elementary schools.

In-service training provided by the Guidance branch as well as by experienced school counsellors is increasing. The services of the Guidance branch are available at any time for this purpose and the demand for this kind of assistance is encouraging, particularly at the elementary school level.

Of special interest was an international guidance conference held in Watertown, New York, on May 8 and 9, 1953. This conference was sponsored jointly by the Bureau of Guidance for New York State and the guidance branch of the Ontario Department of Education. About one hundred guidance workers and principals from Eastern Ontario and Northern New York State attended the sessions at the Watertown High School. Since those in attendance were enthusiastic about the value of the meetings, it was unanimously agreed to hold a second international conference in Eastern Ontario at a future date.

⁽¹⁸⁾ For tables see p. 129

RADIO BROADCASTS

A series of five fifteen-minute radio broadcasts was presented during the fall term. These broadcasts served to indicate to pupils and to teachers the nature of guidance, the methods used, and the help that can be expected from it. Lesson aids were provided to assist teachers to obtain the maximum effectiveness from these broadcasts.

Music

INSTRUCTION

Regular courses in Music continue to be offered, under the supervision of qualified music teachers, in more than 80% of the elementary school classrooms in Ontario.⁽¹⁹⁾ Music courses were also provided in 373 secondary schools, and the number of schools in which instrumental music is taught continues to increase. There were 258 school choirs, 81 orchestras, and 77 bands in secondary schools, and 27 operas were performed during the year.⁽²⁰⁾ School music is making an important contribution to the cultural life of the Province.

TEACHERS AND TRAINING

There were 773 trained and certificated teachers and supervisors of music in the elementary schools and 258 in secondary schools. Music is taught in all the Teachers' Colleges, and the summer course in Music is always largely attended. Nine different courses in vocal and instrumental music were offered in 1953, and the total enrolment was 377.

MUSIC OPTION

Music is an optional subject in Grades IX to XI of the secondary schools. Pupils may take the school course or they may obtain equivalent standing by submitting certificates of several accredited examining bodies, including the Royal Conservatory of Music at Toronto. Grade XII standing was achieved by 948 students in 1953. At the Departmental examinations of Grade XIII 127 pupils attained standing and at the same time 479 pupils from 160 schools presented equivalent certificates.

MUSIC FESTIVALS

Music festivals have been encouraged as a means of motivating classroom work, establishing standards of performance, and stimulating public interest. The number of festivals involving more than one school held in 1953 was approximately 125, and nearly every part of the Province was served.

RADIO

During January, February and March the Department, in co-operation with the Canadian Broadcasting Corporation, presented twenty-four music broadcasts in four series, i.e. "Primary School Music", five fifteen-minute programmes for Grades I-III; "Junior School Music", five fifteen-minute programmes for Grades IV-VI; "Music for Young Folk", ten thirty-minute programmes for Grades VII-X; "Ontario Sings", four fifteen-minute programmes for Grades V-VIII. For all these broadcasts the commentary was prepared and given by the Provincial Director of Music.

⁽¹⁹⁾ For tables see p. 174

⁽²⁰⁾ For tables see p. 174

CONCERTS

To bring live music of high quality to secondary school pupils in smaller communities and to encourage young artists who are for the most part graduates of the Ontario schools, the Department has given, during eight years, 850 concerts by 226 artists. In 1952-53 sixty-six artists gave 134 concerts in 46 towns.

School Attendance

ENROLMENT

The total enrolment of all schools of the provincial system for the school year 1952-53 was 878,203, an increase of 64,116 over the preceding year. The elementary schools showed an increase of 56,412, and the secondary schools 7,704. The number of public and separate schools in operation was 6,857, with a percentage attendance of 93.4, and the number of secondary schools was 378 with a percentage attendance of 94.9.⁽²¹⁾

EMPLOYMENT

The number of school children's employment certificates issued to children under fourteen years of age during the calendar year 1953 was 593, a decrease of 5 from the year 1952. These certificates, which are valid for not more than six weeks in a term, were issued if the need was urgent. The number of home permits issued to pupils fourteen to sixteen years of age was 1,137, and the number of employment certificates was 4,210, increases of 18 and 263 respectively.⁽²²⁾

Physical and Health Education

SCHOOL PROGRAMME

Training courses for teachers in service have been held in both urban and rural areas. In the elementary schools it is hoped that the courses will lead to a greater use of the available facilities. Meetings of groups of secondary school teachers have been directed towards a better assessment of objectives in Physical Education. Discussions have been held with representatives of Ontario universities regarding the standards of physical fitness for students entering university.

HEALTH EDUCATION

A meeting of physicians, nurses, inspectors and teachers was held at the Ontario Athletic Leadership Camp in August. The desirability of the establishment of School Health committees at the community level was discussed and studies are likely to be undertaken in two centres.

A committee of teachers and officials co-operated with the Ontario Temperance Education Association to produce a series of pamphlets to assist teachers in dealing with the topic, the use of alcohol, in Health courses.

CAMPS

Ontario Athletic Leadership Camp

The purpose of this camp is to provide experience in leadership for secondary school pupils. Each secondary school is invited to send a representative selected on the basis of academic standing and contribution to school life. At the camp this year less emphasis was placed on athletic skills and more on developing qualities of leadership.

Four two-week courses were held. Two hundred and twenty girls and two hundred and ten boys attended.

⁽²¹⁾ For tables see pp. 76 and 80

⁽²²⁾ For tables see p. 80

Ontario Camp Leadership Centre, Bark Lake

This camp provides leadership training for prospective counsellors in non-profit camps in Ontario. Students are nominated for the three-weeks training course by Camp directors. A separate course for girls was previously provided at Bellwood, but because of changing water levels it was decided to hold both boys' and girls' courses at Bark Lake this year. One hundred and twenty girls and one hundred boys completed the course.

Further assistance was given to 271 non-profit camps in Ontario by the payment of grants totalling more than \$35,000.

Community Programmes

Services are provided in the fields of community recreation and adult education, to encourage the development of programmes of cultural, social, physical and educational activities by public and private agencies in communities throughout the Province. These services are chiefly advisory, but in addition provision is made for the training and certification of recreation workers, the payment of grants in aid of municipal programmes, and the operation of classes in Citizenship Training and English for newcomers.

ANNUAL GRANTS

Annual grants are paid to municipalities which appoint Municipal Recreation Committees under the Regulations of the Department of Education and which establish and maintain recreation services. Two hundred and fifteen municipalities have organized public recreation programmes and of these approximately 62 municipalities employ full-time Directors of Recreation. In 1953, 150 municipalities received grants totalling \$225,041.27. It is estimated that 160 municipalities will receive \$250,000.00 in 1954.

Grants are also made to provincial organizations conducting programmes of recreation.

ADVISORY SERVICES

The Community Programmes Branch provides two types of advisory and consultant services:

- (1) By technical advisers who are specialists in specific areas of recreation. These specialists are available to communities to provide an advisory service related to problems of a specific nature.
- (2) By field representatives in the various districts of the Province. These representatives assist municipalities, community organizations and agencies in planning, organizing and operating programmes of recreation and adult education.

LEADERSHIP TRAINING

A three-year course of training for Municipal Recreation Directors leading to provincial certification has been established. In 1953, 44 Directors were enrolled in the first year course, 5 were enrolled in the second year course, and 17 were enrolled in the third year course. Ninety-five courses with a total enrolment of 3,754 were provided for community group leaders. Rural group leaders attended night schools operated jointly by the Community Programmes Branch and the Department of Agriculture. In 1953, 19 of these schools offering a wide variety of subjects were attended by 4,227 persons. Eight training courses for playground leadership were carried on with an attendance of 614.

Advanced summer courses were given to instructors and community leaders at regular summer schools of the Department of Education held at Queen's University, the University of Western Ontario, and McMaster University.

At the request of the Ontario Farm Forum organization the Community Programmes Branch co-operated with the Department of Agriculture in providing leadership training courses for forum activities in ten counties.

EXPERIMENTAL PROJECTS

Study of Night Schools

A preliminary study of the night school programme in secondary schools in the school year 1952-53 showed a total registration of 69,846. In addition to this, there were 15,346 new Canadians studying Basic English and Citizenship in secondary schools.

Community Leadership Courses

During the last year a committee of staff members has prepared instructional material for a course for community leaders. The material is now being tested and evaluated before being put to use.

Gerontology

In 1953 a study was made of what had been done to date in Canada, the United States and England on the Problems of the Aging. With the object of assisting Recreation Directors to plan helpful programmes for Senior Citizens' Clubs the information gained was put into pamphlet form.

Family Camp

In order to discover how family camping can contribute to a more co-operative, productive and happier life for the whole family through the understanding of human relationships, learning of new skills and the opportunity to relax, a family camp was held in August, 1953, at Loon Lake, 30 miles north of Fort William. The Branch participated in the camp at which nine families were present, a total of 15 adults and 23 children.

Experimental Conference in Citizenship

In 1953 the Branch organized the first camp conference dealing with the problem of integration of newcomers to Ontario. This conference gave an opportunity to leaders in ethnic groups and leaders in community organizations to meet for a week in a camp setting to study the various problems connected with integration, to get to know each other and to plan together various programmes which would have the effect of bringing newcomers closer into the life of the Ontario communities.

Experimental Course in Day Camp Leadership

At the request of several Ontario municipalities interested in Day Camp programmes an experimental course in Nature Study methods was held in co-operation with the Ontario Field Naturalists at Guelph on June 21 and 22, 1953. Forty-five leaders from seven communities attended this course. Subsequent observations indicated that this course can play an important part in the development of our youth.

CITIZENSHIP TRAINING

In 1953 there were 21,702 students enrolled in 843 Citizenship Training classes of which 760 were operated by local School Boards, and 73 classes directed by the Branch were operated in outlying territories.

In 1953 tests were carried out to ascertain the degree of proficiency of students attending the various classes. Proficiency certificates were presented to 1,917 students, 65% of those writing, who successfully passed a test based upon instruction received.

A conference of representatives of various agencies interested in the integration of new Canadians was held at Geneva Park. The cost and leadership was shared by the Federal and Provincial authorities. About 50 persons attended, representing a number of ethnic groups and organizations of Canadians, both native-born and newcomers.

Public Libraries

BUILDINGS

It is undoubtedly a sign of the growing appreciation of the public library, its service and its place in contemporary life, that there has been so much building activity during the past few years. Library boards cannot demand money for capital expenditures, and funds for this purpose must be achieved by persuasion. They come either as the result of a vote or else through the interest of the municipal council. In either case they are provided only where the public library, through vigorous service, has made its mark upon the community and has become an important and widely appreciated element in the community life.

Since last reporting, the Library Board of the Village of Centralia has purchased a small building and, largely with volunteer help, has converted it into an attractive library. In Lorne Park, excellent rented quarters have replaced a tiny and badly outgrown building. In Norland, an ingenious board bought a small, disused church in the country, moved it into the village and rebuilt it very successfully as a public library. In Woodville, when the association became a public library, a completely new building was provided with public funds. This one bids fair to become the show village library of the Province.

In the towns, the Bobcaygeon library, for many years cramped for room and suffering insecure tenancy, now occupies splendid quarters in what were once the offices of the Boyd Lumber Company, situated on a delightful river bank. The old church which has for long years housed the Georgetown Public Library most inadequately, has been completely remodelled at public expense and has been made attractive and well adapted to a town library service. In Long Branch, the new library has not yet arisen but the ratepayers have voted in its favour and construction is about to begin. Tilbury offers one of the most striking examples of successful conversion. Two shops have been thrown together to produce a modern and functional library, well designed and decorated in striking taste. In Trenton, a new library, functional in architecture and beautifully located overlooking the Bay of Quinte, is nearing completion. And in Wingham, dreary quarters in the municipal hall have been thoroughly redesigned and rebuilt to provide an extremely satisfactory small town library.

Building in the cities has not been so active as in the smaller places. However, a beautiful new library is nearing completion in Oshawa, the gift of Colonel R. S. McLaughlin to his city. The redesigning and remodelling of the St. Catharines library has been completed with satisfactory results; and a new outlet, the Seminole Branch, of outstanding design and construction, has been opened in Windsor.

GRANTS

Legislative grants paid to libraries in 1953 amounted to \$736,180, an increase of \$168,299 over the year before. Public libraries received \$620,791, county and district libraries \$72,700, and library associations \$42,689. Grants on the certificates of librarians (excluding the Toronto Public Library) amounted to \$108,000. The Legislative vote for the purpose of making grants to libraries has risen to its present figure from the \$105,000 voted in 1947.

SERVICE

There were 539 public library agencies operating in 1953, made up of 232 public libraries, 244 library associations, 49 branch public libraries and 14 county and district libraries. The following changes are reported as having

occurred between January, 1953, and February, 1954. New public libraries were established in Levack in the District of Sudbury, Michipicoten (Wawa) in the District of Algoma, and Stamford Township in the county of Welland. The public library of Lancaster, which had been closed for a number of years, was reorganized and is now in service again. Ten library associations have become public libraries, namely Athens, Bradford, Huntsville, Kirkland Lake, Lambeth, Merlin, Port Credit, Thornhill, Wardsville and Woodville.

A district library co-operative has been organized in the District of Thunder Bay. Library associations have been established in Atikokan in the District of Rainy River, Finch in the county of Stormont, and Forest Hill Village in the county of York. The following library associations have been disestablished for failure to comply with the provisions of the Public Libraries Act: Glen Allan, Harrington, Sparta, Stevensville, Tottenham and Underwood.

It is noted that a few library associations are now being organized; and when they are, it is usually with the intention of achieving public library status at an early date.

New bookmobiles have been purchased for the public libraries of Etobicoke Township, Ottawa and Sarnia. This brings to nineteen the number of bookmobiles in service in the Province at the end of 1953.

The use of Public library books increased by one million in 1952, despite the fact that television appears to have caused a falling off in some districts. The total circulation was 16,540,000, of which the public libraries accounted for 15,440,000 and the library associations 1,100,000 books.

EXPENDITURES ON LIBRARIES

In 1953 the total expenditure on public libraries was \$4,094,000, of which \$129,000 was spent on library associations and \$142,000 on county and district libraries. This is an increase of \$463,000 over the year before. Book purchases of \$717,400 were \$63,400 higher and salaries at \$1,978,900 were \$239,300 more than in 1952.

It is noted that only 14 public libraries are still receiving less than the 50¢ per capita in tax levy which library boards may require under the provisions of the Public Libraries Act. A greatly increased local support is being achieved generally, stimulated by the generous Legislative grants. Of the 14 libraries which received less than the minimum 50¢ per capita in 1952, three are township libraries which have not yet been fully developed, two are town libraries, and nine are in villages. The 11 town and village municipalities have a combined population of 23,000 and show total book issues of only 74,000, or about 3.2 books per capita.

Fifty-seven libraries are receiving 90¢ per capita or more from their local governments, and forty-three are over the \$1.00 mark.

The average public library tax levied by municipal councils in 1952 was at the rate of 80¢ per capita, an increase of 5¢ per capita over 1951, while the whole expenditure on public libraries in 1952, per capita of population served, was \$1.34, an increase of 10¢.

It appears that increased financial support and increased reading from the public libraries go hand in hand, and that the advent of a new medium for mass communication, such as television, is likely to reduce the volume of reading only where the library is not well enough supported to meet the challenge.

TRAVELLING LIBRARIES

The 1953 book circulation from the Travelling Libraries was 63,109. Boxes sent out were 1,351. Of these 1,037 went to elementary schools, 58 to secondary schools, 168 to small libraries, 22 to groups of the Women's Institute, 23 to groups of the Farm Forum and 43 to miscellaneous organizations.

Issues from the Rural Teachers' Professional Library, recently reorganized and re-stocked, continue to increase slowly; but the use of this valuable material

is still far below that which might be expected, considering its importance to rural teachers and the strong approval which it has received from the inspectors.⁽²³⁾

Public Records and Archives

MANUSCRIPT DIVISION

Several valuable additions to materials in the Archives were made during the year. The various government departments are important sources of material. A quantity of records were received from the Prime Minister's Department, records of the Hepburn, Nixon and Conant administrations, 1934-43. Such records cannot be made available for some time, but they are now being sorted and will in future be a most valuable source of information regarding the activities of the Government and conditions in the Province during these years. Some files were also received from the Department of the Attorney-General.

From Colonel Charles Lindsey the Archives received on indefinite loan the W. L. Mackenzie papers (including a large number of Lindsey papers). A portion of this collection was sent temporarily to the British Museum, where they are being examined by the writer of a forth-coming biography of Mackenzie. From Colonel C. G. M. Grier were received, also on indefinite loan, papers of his ancestor, the Honourable William Dickson, who was chiefly instrumental in bringing about the settlement of Dumfries Township. The estate of the late H. H. Langton donated the original Langton letters (most of which have been published), together with sketches and miniatures by Anne Langton.

Last year the records of the Canada Company which had been preserved in Canada were transferred to this Department. This year the records from the head office in London were received. Among the latter are the Minutes of the Court, the early correspondence with the Commissioners, and correspondence between the Company and His Majesty's Government.

With the consent of the donor, Mrs. Charles Macinnes, the University of Toronto Library transferred to the Archives the T. C. Patterson papers. Mr. Patterson was the editor of the Toronto Mail. Colonel S. Heward donated the original Crookshank-Lambert letters. A collection of manuscripts, maps, and pamphlets belonging to the late Percy J. Robinson was presented by Mrs. Robinson. By purchase the papers of Colonel J. B. Rousseau (1758-1812), pioneer settler and trader, were acquired.

Many other individual items were received. Mention should perhaps be made of the making of microfilm copies of much of the correspondence of John Beverley Robinson and of the diary of the Reverend F. J. Lundy, Rector of Grimsby, 1849-1867, lent to us for this purpose.

Much work has been done on the Records of the Crown Lands Department, placed in the Archives many years ago and now organized and made available for study. Another large body of material inventoried during the year is the William Kirby collection, given to the Archives several years ago by the Niagara Parks Commission. There is also on file a very large collection of railway material, among which are the Francis Shanly records. The latter have now been reduced from a conglomeration of miscellaneous papers to a useful collection. Calendars have been compiled for smaller collections: the J. B. Rousseau papers, the Sir William Hearst collection, some commercial records, and some W. L. Mackenzie papers.

There are in the Archives three books of maps used by Colonel Thomas Talbot, the founder of the Talbot Settlement, in locating his settlers. The names of those to whom land was allotted were written in pencil and, as in the process of time the original entries were becoming illegible, photostats of these maps have been made and the names of the settlers deciphered and written in. The result will be an almost imperishable record of a series of valuable documents.

⁽²³⁾ For statistical tables relative to this report see p. 153

As reported last year, the books in the Archives library were classified and catalogued in 1951-52. This did not include government publications, and much work has been done in checking and cataloguing these. In some cases, rare government reports have some pages missing; in such cases, the complete book has been borrowed, the missing pages photostated, and the photostats placed with our original to make a complete item.

SERVICES

Beginning in January, 1953, a careful check was kept of those who visited the reading room to use manuscripts and books. The total for the year was 866 persons, an average of nearly four persons per day. As those who use manuscripts usually remain for some time, the reading room has been almost continuously occupied. A new, improved, table-model microfilm reader and additions to the microfilm collection have resulted in increased use of this medium.

In the early summer the Board for the Protection of Archaeological and Historic Sites was constituted, and the Archivist was asked to act as secretary. There were a number of meetings of the Board in the Archives Building during the remainder of the year, and several recommendations were forwarded for consideration, both on sites to be designated and procedure to be followed.

As in previous years, three cases of documents were sent during the school year to schools selected by the Secondary School inspectors' office. These documents serve to bring a sense of realism to the history being taught, and are much appreciated.

Trade Schools

There were 122 registered Trade Schools operating in Ontario in 1953. These schools offered 86 different courses of study, available in day or evening classes or by correspondence.

Day school registration showed a decrease of approximately ten percent, and night school registration an increase of fifteen percent, compared with the registrations in 1952. The number of registrations for instruction by correspondence was the highest recorded since the Trade Schools Regulation Act became effective.

The need for privately-operated fee-charging Trade Schools is sometimes questioned, when there are Vocational schools providing day and evening courses in most of the larger centres of the Province and free correspondence courses offered by the Department of Education. The Trade Schools provide courses not always found in the Vocational schools or in the Department of Education correspondence courses. They are able to permit entry at any time and progress at a rate adjustable to the individuals capacity. Trade School timetables are flexible enough to permit employed persons to attend in off-work hours, or to attend day or evening classes for alternating periods. These are some of the reasons why the Trade Schools continue to occupy a useful place in our educational system and to enjoy their own measure of public patronage.

Each successive year that private Trade Schools operate under the supervision of the Department of Education there are fewer cases in which the schools fail to comply, intentionally or inadvertently, with the regulations. Generally speaking, the proprietors are co-operative and anxious to meet the requirements implied in their registration.

Ontario School for the Blind

ENROLMENT

There were 198 students enrolled during the school year 1953-54. Eight students withdrew during the year and the June, 1954, enrolment was 190.⁽²⁴⁾ Of this number, 27 students were from Manitoba, 18 from Alberta, and 21 from Saskatchewan.

PROGRAMME

Academic, physical and social activities all entered into the school programme, with music and dramatics as usual playing an important part in the corporate life of the school.

TEACHER-TRAINING

Classes were instituted to provide special training for teachers serving in the school. It is intended to provide a course extending over a period of five years and including classes in Braille Reading and Writing, Special Methods for the Blind, Physiology of the Eye, and Psychology of the Blind.

NEW JUNIOR SCHOOL BUILDING

A new building for the junior school was opened in September, 1953, to accommodate 54 pupils aged from six to ten years. The building includes dormitory, dining, recreation and classroom accommodation for the pupils. A separate wing of the building provides a twelve-bed hospital to serve all the pupils of the school.

Ontario School for the Deaf

ENROLMENT

The enrolment of the Ontario School for the Deaf on September 15, 1953, was 372, an increase of 12 over the total of the previous September. During the year it reached an all-time high of 376.⁽²⁵⁾ Most of these children were profoundly deaf. Their hearing losses in decibels for the better ear, as determined by the use of a pure-tone audiometer, were as follows: 90-100 decibels, 206 pupils; 80-90 decibels, 60 pupils; 70-79 decibels, 47 pupils; 60-69 decibels, 36 pupils; 50-59 decibels, 16 pupils; 40-49 decibels, 5 pupils; 30-39 decibels, 2 pupils.

The seven pupils with hearing losses under 50 decibels were not only hard-of-hearing but lived in communities where special provision could not be made for their education.

PROGRAMME

During the period under review, two additional classes were organized to take care of the increased enrolment. Three teachers were added to the staff, two for the additional classrooms and one to provide for an increase in auditory training for the youngest pupils. Three additional classes were equipped with group hearing aids. Some work was done to evaluate wearable hearing aids for individual pupils, and as a result many pupils with sufficient residual hearing to profit from wearing individual aids are now using them. A new automatic press, a trim saw, and a caster were added to the print shop. Showers and dressing rooms were added to the boys' gymnasium.

⁽²⁴⁾ For tables see p. 176

⁽²⁵⁾ For tables see p. 177

School plays and pageants continue to provide important training for the children and were presented to large audiences in the school auditorium. The annual visiting day and display of work from the academic and vocational classes in June was attended by a large number of parents and friends of the children.

Service Record

IN MEMORIAM

CHARLES F. EWERS, B.A., retired Public School Inspector for District Division 2, passed away on May 12 at the age of eighty-seven. Mr. Ewers was born in Manchester and received his elementary education in Port Perry. He graduated with honours in Science from Queen's University. He taught public school at Kleinburg and was Principal of the Bolton Continuation School and the High Schools in Bradford and Aurora. For two years he served as Principal of the Fort Frances High School, and in 1925 was appointed Public School Inspector for District Division 2. He retired in 1936. Mr. Ewers did much to advance the cause of education as a teacher, as a High School Principal, and as an Inspector.

OLIVER M. MacKILLOP, B.A., B.Paed., passed away suddenly at his home in Richmond Hill on March 9. He was born at Allenford and received his elementary and secondary education in Port Elgin and Owen Sound. He attended the Faculty of Education, and later taught for several years in the rural schools of the Province. He graduated from Queen's University in 1922 and served as Principal of Belmont Continuation School and Milton High School. In 1927 he was appointed Public School Inspector for the City of Sudbury and surrounding district, and was transferred in 1944 to York No. 1 with residence at Richmond Hill. Mr. MacKillop loved children, and it was his desire that the teachers should inspire in their pupils a love of learning. He was himself an ardent student of English Literature. During his many years of service he made an outstanding contribution to both elementary and secondary education in the Province.

LAMBERT NORMAN, B.A., who retired as Public School Inspector for Waterloo South in 1943, died on February 25, 1953. Mr. Norman was born in King, Ontario, in 1869. He was an honour graduate of Toronto University in Modern Languages. He taught in Ingersoll Collegiate and Kitchener-Waterloo Collegiate. In 1913 he was appointed Public School Inspector for Waterloo South and served in that post for thirty years. Following his retirement Mr. Norman resided in the Village of Ayr.

HOWARD ROBERTSON, B.A., B.Paed., Public School Inspector for Waterloo North, died on May 30, 1953. Mr. Robertson was born in Howard Township, Kent County, on May 18, 1898. He received his early education in Kent County and later graduated from Victoria University in Arts and Theology. He was ordained as a Minister of the United Church, and served in Dewberry, Alberta. Later he taught public school in Toronto and became principal of Norway Public School in that city. Later Mr. Robertson was Supervising Principal for the Town of Brockville. In 1942 he was appointed Public School Inspector in Glengarry County. On January 1, 1947, he was transferred to Waterloo North, which position he held until the time of his death. Mr. Robertson was highly respected by his colleagues. His untimely death was due largely to his untiring devotion to duty.

RETIREMENTS

Mr. JOSEPH BÉCHARD retired as Master, University of Ottawa Teachers' College, on August 31, 1953. Mr. Béchard was born in Rockland, where he attended the primary and secondary schools. He obtained his B.A. from the University of Montreal in 1912. During World War I Mr. Béchard served in the Canadian Army. He attended the Ontario College of Education in 1916. His first teaching

appointment was at Plantagenet High School in 1917. From 1920 to 1925 he taught at the Sturgeon Falls Model School. In 1925 he was appointed Principal of the Embrun Model School, where he remained until 1927 when he became Separate School Inspector at Sudbury. In September, 1931, he was made Master at the University of Ottawa Normal School and remained there until his retirement. He taught Mathematics and School Management most successfully, and was well liked both by students and masters for his competence and joviality.

Miss JESSIE I. CROSS, B.A., retired as Supervising Teacher of Public Schools for York Nos. 3 and 4 on August 31, 1953. Miss Cross was born in Barrie and received her elementary education in Stewarttown and Georgetown. After graduating from the Gravenhurst High School she attended the Faculty of Education when it first opened in 1907. Miss Cross taught in Waubauskene, Powassan, Collingwood, Orillia, and Toronto. In 1917 she was appointed to the staff of the Toronto Normal Model School, where she taught various grades until August 31, 1941, when she was appointed Supervising Teacher for York Nos. 3 and 4. Miss Cross was a teacher of much competence and was popular with teachers and pupils. On her retirement she said "As a child I wanted to be a teacher, and I have never regretted my decision to become one."

GEORGE C. DOBSON, B.A., B.Paed., Public School Inspector for Kent County, retired on March 26. He was born in Essa Township and secured his elementary education there. He attended the Barrie Collegiate Institute and taught elementary school for some years in Western Canada. He graduated with Honours in Mathematics from the University of Toronto, and later attended the faculty of Education. In 1918 he was appointed to the staff of the Sudbury High School. Later he taught in the secondary schools in Port Colborne, Almonte, and Weston. In 1934 he was appointed Inspector of Public Schools for Bruce West with residence at Kincardine, and in 1944 was transferred to the County of Kent.

HUBERT B. GALPIN, B.A., B.Paed., Inspector of Public Schools, retired in January, 1953. Mr. Galpin was born in London, where he received his elementary and secondary education. He graduated from the Faculty of Education in Toronto in 1912 and taught for nine years in the London Public Schools. This teaching service was interrupted during World War I, when he served as an artillery officer in the Canadian Army in Canada and in Europe. In 1928 Mr. Galpin was appointed Inspector of Public Schools in Lambton No. 1 with residence in Sarnia, where he served until 1951 when he was transferred to the inspectorate of York No. 9. Mr. Galpin is a graduate of Queen's University in Arts, and holds the degree of Bachelor of Pedagogy from the University of Toronto. His influence towards efficiency was felt in Lambton County and York County during his tenure of office as an inspector.

Miss FLORENCE F. HALLIDAY, B.A., B.Paed., Master in the Toronto Normal School, retired on August 31, 1953. She first entered the teaching profession in 1908 when she graduated from the Faculty of Education and taught in a rural school near her home in Chesley, Ontario. After two short periods of teaching in the Orangeville Public School and the Thamesville Continuation School, Miss Halliday returned to Chesley to teach there in the High School for eight years. Then she left to go to the University of Toronto where she took the honour course in Mathematics and Physics, graduating in 1922. With this standing she taught Mathematics for one year in Parkdale Collegiate Institute, Toronto, thus completing an experience which embraced every type of school in the Provincial system. It was in September, 1923, that Miss Halliday began the career in the Toronto Normal School which continued for thirty years. By former students and associates she will always be honoured for her manifest kindness and the complete integrity of her character.

HUGH H. LOUCKS, B.A., attended Ottawa Normal School and, after graduation, taught in a one-room school in Lanark County. Later he served as Principal of the two-room school at Woodville. During the period 1928-41 Mr. Loucks was Principal of the Morewood Public School and the Morewood High School. He was

appointed Inspector of Public Schools for Hastings North with residence at Bancroft, effective September 1, 1941. He served there until September, 1 1948, when he was transferred to Renfrew South with residence at Renfrew. After a long period of illness Mr. Loucks retired August 31, 1953.

WILLIAM J. MORRISON, B.A., B.Paed., retired on January 27, 1953, as Superintendent and Principal of the Ontario School for the Deaf, Belleville, completing half a century of devoted service in many educational fields. Born in Beeton, in Simcoe County, he received his early education in nearby Painswick. He attended Barrie Collegiate Institute and Barrie Model School and began teaching in January, 1902, in the rural school at Eady. Next he became principal of the school at Hillsdale. Following this he graduated with honours in Chemistry and Mineralogy from the University of Toronto and later obtained the degree of Bachelor of Pedagogy there. His varied teaching career includes service at Dane for the Reading Camp Association in the summer of 1908, in a rural school in Saskatchewan, as science master in Listowel and Dunnville High Schools, principal and science teacher in Dutton High School and Bowmanville High School, and Inspector of Public Schools for the city of Brantford. After six years in the latter position, he was appointed to head the Ontario School for the Deaf on October 1, 1935. An able administrator, his leadership was characterized by a profound understanding of the needs, and a kindly interest in the welfare of the deaf children in Ontario.

Mrs. OLIVE E. PALMER, B.A., after experience as a teacher and Guidance Counsellor in Ontario schools, joined the staff of the Guidance Branch of the Department of Education on July 1, 1945. She served as Assistant Director of Guidance until her appointment as Acting Director in July, 1953. She resigned in October, 1953, to be married to Mr. John G. Diefenbaker. With her wide experience, expert knowledge of Guidance and its relationship to general educational progress, and her charming personality, she made a very definite contribution to the development of Guidance services in Ontario schools.

ARNOTT M. PATTERSON, M.A., B.Paed., who retired as Master from the Toronto Teachers' College in November, 1953, had been on the staff of the Toronto Normal School since 1923. Born on a farm in Haldimand County, he took junior matriculation with honours from Caledonia High School in 1902. His First Class certificates, professional and non-professional, were obtained at Central Collegiate, Hamilton, where the Ontario Normal College was then located. Mr. Patterson began to teach in 1905 in the Vienna High School. He served briefly in Cornwall High School and Ryerson Public School, Toronto, and then went to Queen's University for his M.A. degree in Science, taken in 1910. After that he served in Jarvis and Parkdale Collegiate Institutes, Toronto, before being appointed head of the Physics Department at Humberstone, where he remained for ten years. Mr. Patterson's work as Master in the Normal Schools at Stratford and Toronto was enhanced by his outstanding scholarship and by his interest in and consideration for individual students.

JAMES J. WILSON, B.A., B.Paed., retired on August 31, 1953, from the inspectorate of Grey North and Bruce (in part). He was appointed to this position on August 1, 1929, and served this inspectorate for twenty-four years. Prior to his appointment, Mr. Wilson was Principal of Chesley High School.

Miss MADELINE C. YOUNG, M.A., B.Paed., English Master in the Toronto Normal School since 1931, retired from that position on August 31, 1953. Though born in Trenton, Ontario, Miss Young received all her elementary and secondary school education in Belleville. Her distinguished teaching career, after attendance at the Ontario Normal College in Hamilton, began in 1907 in a rural school at Melrose in Tyendinaga Township, and continued with a "Senior First" class in Belleville. She attended McMaster University, graduating with a B.A. degree in 1911, and then taught in the Lakefield Continuation School and Albert College, Belleville. In February, 1919, she was appointed Head of the English Department

at Belleville Collegiate Institute, where she remained till her appointment to the Normal School. She spent a year in post-graduate study in English at Columbia University and obtained an M.A. degree. Her Bachelor of Pedagogy was from the University of Toronto. Miss Young was peculiarly beloved by reason of her ability to delight as well as to inspire, and to communicate her own enthusiasm for literature, especially drama and poetry.

PROMOTIONS

- Howard R. Beatie.....Promoted to Assistant Superintendent in charge of Auxiliary, Guidance and Statistical Services, June 1, 1953.
- Herbert A. Newstead.....Promoted to Director of Guidance, December 1, 1953.
- Joseph J. Demeza.....Promoted to Superintendent and Principal, Ontario School for the Deaf, January 27, 1953.
- J. R. McCarthy.....Promoted to Assistant Superintendent of Elementary Education, June 1, 1953.

APPOINTMENTS

- James R. Thomson.....Appointed Secondary School Inspector, July 1, 1953 (Secondary Education Branch).
- Clancy C. Fisher.....Appointed Vocational Supervisor, Correspondence Courses Branch, August 4, 1953.
- Gaetan C. Filion.....Appointed Elementary School Inspector, September 1, 1953.
- J. Douglas Hanmer.....Appointed Elementary School Inspector, September 1, 1953.
- Melvin W. Holmes.....Appointed Elementary School Inspector, September 1, 1953.
- Bernard A. Hoy.....Appointed Elementary School Inspector, September 1, 1953.
- Hector L. Knight.....Appointed Elementary School Inspector, September 1, 1953.
- John S. Lowcock.....Appointed Elementary School Inspector, September 1, 1953.
- Thomas A. S. McKee.....Appointed Elementary School Inspector, September 1, 1953.
- George M. Nobes.....Appointed Elementary School Inspector, September 1, 1953.
- Everett G. Peterson.....Appointed Elementary School Inspector, September 1, 1953.
- Peter H. Torrance.....Appointed Elementary School Inspector, September 1, 1953.
- Charles W. Young.....Appointed Elementary School Inspector, September 1, 1953.
- John A. Aikman.....Appointed Master, Hamilton Teachers' College, September 1, 1953.
- B. Gertrude Bergey.....Appointed Master, London Teachers' College, September 1, 1953.
- John L. Bowers.....Appointed Master, Stratford Teachers' College, September 1, 1953.
- David A. Clee.....Appointed Master, Toronto Teachers' College, September 1, 1953.
- Murray J. Dobson.....Appointed Master, Toronto Teachers' College, September 1, 1953.
- Donald E. Farwell.....Appointed Master, Toronto Teachers' College, September 1, 1953.

Maxwell B. Parnall.....Appointed Master, Toronto Teachers' College,
September 1, 1953.
Edison J. Quick.....Appointed Master, Toronto Teachers' College,
September 1, 1953.
Emile Dubois.....Appointed Master, University of Ottawa Teachers'
College, September 1, 1953.
Erna A. Martin.....Appointed Master, North Bay Teachers' College,
September 1, 1953.
Mrs. Claire S. Burke.....Appointed Kindergarten Specialist, Toronto Teachers'
College, September 1, 1953.

TRANSFERS

Maynard Hallman.....Transferred from Master, Hamilton Teachers' College,
to Elementary School Inspector, January 1, 1953.
Bertha Dick.....Transferred from North Bay Teachers' College to
Toronto Teachers' College, September 1, 1953.
J. R. M. Peat.....Transferred from Master, Toronto Teachers' College,
to Elementary School Inspector, September 1,
1953.
Frank P. Cunningham.....Transferred from Assistant Principal, Ontario School
for the Deaf, To Elementary School Inspector,
September 1, 1953.

RESIGNATIONS

Geoffrey S. O'Brian.....Assistant Director of Cadet Corps, resigned May 31,
1953.
A. Margaret Wettlaufer...Resigned as Kindergarten Specialist, Toronto Teachers'
College, August 31, 1953.
(Mrs.) Olive E. Palmer....Executive Officer, Guidance Branch, resigned October
31, 1953.
Harold A. Christie.....Elementary School Inspector, resigned August 31, 1953.
Kenneth D. Hall.....Master, London Teachers' College, resigned August 31,
1953.

SUPERANNUATIONS

Arnott M. Patterson.....Master, Toronto Teachers' College, superannuated
November 29, 1953.
Madeline C. Young.....Master, Toronto Teachers' College, superannuated
August 31, 1953.
Florence F. Halliday.....Master, Toronto Teachers' College, superannuated
August 31, 1953.
Joseph B  chard.....Master, University of Ottawa Teachers' College,
superannuated August 31, 1953.
James J. Wilson.....Elementary School Inspector, superannuated September
2, 1953.
Hubert B. Galpin.....Elementary School Inspector, superannuated January
31, 1953.
William J. Morrison.....Superintendent and Principal, Ontario School for the
Deaf, superannuated January 26, 1953.
George B. Dobson.....Elementary School Inspector, superannuated March 26,
1953.
Hugh H. Loucks.....Elementary School Inspector, superannuated August
31, 1953.

APPOINTMENTS

The following appointments were made by Boards of Education during 1953:

Township of Etobicoke

L. W. Smith, Supervising Principal, Etobicoke Public Schools, appointed Public School Inspector and Assistant Superintendent of Public Schools, September 1.

City of Hamilton

G. J. Patterson, Principal, Prince of Wales School, Hamilton, appointed Public School Inspector, January 1.

City of Kingston

H. C. Hunter, Supervising Principal, Kingston Public Schools, appointed Public School Inspector, September 1.

City of Ottawa

H. A. Christie, Inspector for Waterloo No. 2, appointed Public School Inspector, August 17.

City of Windsor

K. H. D. Hall, London Teachers' College staff, appointed Public School Inspector, September 1.

The following appointments were made to the provincial staff of inspectors during 1953:

Carleton and Prescott and Russell No. 1

G. M. Nobes, Broadview Public School, Ottawa, appointed Public School Inspector with Inspector D. W. Simpson, September 1.

Glengarry No. 1 and Prescott (In Part)

P. H. Torrance, Principal, McKee Avenue Public School, York North T.S.A. No. 1, appointed Public School Inspector, September 1.

Northumberland

C. W. Young, Principal, Ross Public School, Welland, appointed Public School Inspector, September 1.

Prince Edward

H. L. Knight, Teacher in Wingham District High School, appointed Public School Inspector, September 1.

Welland (In Part); Lincoln (In Part)

J. R. M. Peat, Toronto Teachers' College staff, appointed Public School Inspector, September 1.

E. G. Peterson, Principal, Central Public School, Welland, appointed Public School Inspector with Inspector J. R. M. Peat, September 1.

York Nos. 3 and 4

M. W. Holmes, Supervising Principal, Oakville Public Schools, appointed Public School Inspector with Inspector W. G. Chatterton, September 1.

York No. 7

J. D. Hanmer, Principal, Chester Public School, East York, appointed Public School Inspector with Inspector F. W. Minkler, September 1.

York No. 9

Maynard Hallman, Hamilton Teachers' College staff, appointed Public School Inspector, January 1.

District Division 3

T. A. S. McKee, Public School Inspector in the City of Ottawa, appointed Public School Inspector, September 1.

District Divisions 7 and 8 (1)

J. S. Lowcock, Principal, Cornwall Public School, Port Arthur, appointed Public School Inspector with Inspectors C. A. Rath and C. M. Elliott, September 1.

R.C.S.S. Division 8

F. P. Cunningham, Vice-Principal, Ontario School for the Deaf, appointed Separate School Inspector, September 1.

R.C.S.S. Division 29 (New)

B. A. Hoy, Principal, Pinecrest Public School, Camp Petawawa, appointed Separate School Inspector, September 1.

Inspector Without Designated Area

G. C. Filion, Teacher, Sudbury High School, appointed Separate School Inspector, September 1.

Transfers

The following transfers were made in the provincial staff of inspectors during the year 1953:

A. F. Brown, from Prince Edward to Grey North and Bruce North, September 1.

W. H. Bulger, from R.C.S.S. Division 8 to R.C.S.S. Division 30 (new), September 1.

R. J. Carter, from Welland (in part); Lincoln (in part) to Lambton No. 1, January 1.

W. G. Chatterton, from Welland (in part); Lincoln (in part) to York Nos. 3 and 4, September 1.

D. J. Hynes, from Glengarry No. 1 and Prescott (in part) to Waterloo No. 2, September 1.

G. A. McLeod, from Lincoln to Renfrew South, September 1.

G. A. Noble, from District Division 3 to York No. 1, September 1.

L. C. Sutherland, from Northumberland to Waterloo No. 1, September 1.

D. I. Young, Inspector without designated area, to Haldimand, January 1.

PART II

REGULATIONS FOR GENERAL LEGISLATIVE GRANTS

GENERAL LEGISLATIVE GRANTS

THE DEPARTMENT OF EDUCATION ACT

O. Reg. 30/53.

General Legislative Grants.

New and Amending Regulations 36, 37, 38, 44, 50, 51, 52, 53, 54, 55, 56, 57 and 68, of Consolidated Regulations 1950, and O. Reg. 34/51, 319/51, 133/52, and Revoking O. Reg. 262/52.

Approved—26th February, 1953.

Filed—3rd March, 1953, 11.40 a.m.

REGULATIONS MADE BY THE MINISTER UNDER THE DEPARTMENT OF EDUCATION ACT

GENERAL LEGISLATIVE GRANTS

INTERPRETATION

1. In these regulations

- (a) "equalized assessment" has the same meaning as in *The High Schools Act*;
 - (b) "instructional salaries" means the total amount paid to or on behalf of teachers for day-school services in respect of
 - (i) their salaries, and
 - (ii) travelling allowances for itinerant teachersand includes the amount of superannuation withheld by a board under *The Teachers' Superannuation Act*;
 - (c) "municipality" means city, town, village or township;
 - (d) "public institution" means an institution operated by Canada, Ontario, a county or a municipality, and having real property not taxable under *The Assessment Act*;
 - (e) "rural municipality" means an organized township;
 - (f) "teacher" means a person employed by a board who, under a certificate or letter of standing from the Minister, is engaged in inspecting, supervising or teaching in a school under the jurisdiction of the board;
 - (g) "urban municipality" means city, town or village; and
 - (h) "year" means the period from and including the 1st of January to and including the 31st of December next following.
2. "Approved cost" shall be subject to the approval of the Minister.

APPORTIONMENT

3. The General Legislative grants for public schools, separate schools, continuation schools, high schools and vocational schools shall be

- (a) apportioned and distributed to boards in accordance with these regulations, and
- (b) applied to such school purposes as the board receiving a grant deems expedient.

CONTINGENCIES OF GRANTS

4. Where a board does not comply with the Acts administered by the Minister or the regulations thereunder, the Minister may withhold the whole or any part of a grant payable to the board.

5. Where in any year the amount voted by the Legislature for the grants under these regulations is insufficient or more than sufficient to pay the grants in full, the Minister may make a *pro-rata* reduction or increase, as the case may be.

PART 1

Public and Separate Schools

APPLICATION

6. This part applies to general legislative grants in respect of public and separate schools.

INTERPRETATION

7.(1) In regulations 10 and 12 "approved cost" means

- (a) payments in respect of principal, interest and other charges due in the current year on debentures issued and capital loans obtained on or after the 1st of January, 1951, and
- (b) the total of the disbursements made from current funds by a board or on its behalf during the preceding year, except as set forth under regulation 12, in respect of
 - (i) instructional salaries not exceeding \$75 for each pupil of average daily attendance as determined under regulations 8 and 9,
 - (ii) salaries of teachers for night-school services,
 - (iii) principal, interest and other charges due in that year on debentures issued and capital loans obtained before the 1st of January, 1951,
 - (iv) transportation of pupils to and from school, but only where their parents or guardians do not contribute directly to the cost of the transportation,
 - (v) tuition fees paid to another board,
 - (vi) fuel and electricity but only where the board qualifies for a grant under subregulation 2 of regulation 10 and the assessment per class-room unit is less than \$20,000,
 - (vii) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof,
 - (viii) structural alterations, new foundations, new basements, new stairways, new roofs, new floors, fire-escapes, fire-doors, new heating-equipment, new lighting, new sanitary-conveniences of a modern type, new water-facilities, new fences, new black-boards, new desks, new pianos and new film-projectors, except where the school under the jurisdiction of the board is in an urban municipality having a population of 2,500 or more or is in a rural municipality having a population of 25,000 or more, and
 - (ix) new schools, additions to schools, new class-rooms, and new buses for the transportation of pupils,

less current-fund receipts as follows:

- (x) tuition fees from another board,
- (xi) amounts transferred to current funds from capital funds,
- (xii) insurance proceeds,
- (xiii) receipts from the sale of capital assets, and
- (xiv) refunds and reimbursements connected with disbursements previously included in approved cost.

(2) In this Part

(a) "assessment" means

- (i) the assessment of property rateable for public-school purposes in the public-school section or for separate-school purposes in the area prescribed under section 57 of *The Separate Schools Act*, as the case may be, as shown by the assessment roll on which taxes were levied for the preceding year, or where that public-school section or separate-school area is in a municipality which forms part of a county for municipal purposes, the amount at which that assessment was equalized; and
- (ii) where moneys are received by the board under section 33 of *The Assessment Act* or clause b of regulation 4 of Ontario Regulations 197/52, the assessment as set forth in sub-clause i together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the rate-payers of the school section or separate-school organization for school purposes, would result in taxes equal to the moneys so received by the board,

but where the assessment under sub-clause i, to be used for a municipality in the calculation of the grant under these regulations, is more than 120 per cent of the assessment under sub-clause i used for that municipality in the preceding year, the assessment of that municipality under sub-clause i means 120 per cent of the latter assessment;

(b) "class-room unit" means

- (i) for the board of a larger unit of administration, the number of open class-rooms on the first school-day of the current year, together with one-half of a class-room for each of the former school-sections or separate-school areas in which the board is not operating a school and which are included in the larger unit,
- (ii) for a board all of whose pupils are attending a school operated by another board, the quotient, adjusted to the next largest whole number, obtained by dividing the number of those pupils enrolled on the first school-day of the current year by 39,
- (iii) for a board operating a school and having more than 20 pupils enrolled on the first school-day in the current year at a school operated by another board, the number of open class-rooms on the first school-day of the current year added to the quotient, adjusted to the next largest whole number, obtained by dividing the number of those pupils by 39, and
- (iv) for other boards, the number of open class-rooms on the first school-day of the current year;

(c) "cost of operating" means the total of the disbursements for school purposes paid out of current funds by a board or on its behalf during

the preceding year under the Acts administered by the Minister and the regulations thereunder, and includes payments in respect of principal, interest and other charges due in the current year on debentures issued and capital loans obtained on or after the 1st of January, 1951, less

- (i) repayments of current-fund borrowings,
 - (ii) moneys transferred to a reserve fund,
 - (iii) payments to a municipality to be credited against any tax levy by that municipality,
 - (iv) receipts from another board but not including receipts under an arbitration award or an agreement in the stead thereof,
 - (v) amounts transferred to current funds from capital funds,
 - (vi) receipts from insurance,
 - (vii) receipts from the sale of capital assets, and
 - (viii) refunds and reimbursements connected with prior disbursements;
- (d) "larger unit of administration" means a consolidated-school section, a township school-area, an area under a township board, an improvement district, or a union of separate-school areas;
- (e) "open class-room" means a class-room used throughout each school-day by pupils in the charge of a teacher; and
- (f) "population" means
- (i) subject to sub-clause ii, the population of the municipality in which the school is located, as shown on the assessment roll on which taxes for the preceding year were levied, less the number of inmates of public institutions, or
 - (ii) where a board of education has been formed for 2 or more urban municipalities, the average of the combined populations thereof, computed in accordance with sub-clause i.

AVERAGE DAILY ATTENDANCE

8.(1) Subject to subregulation 2, the average daily attendance shall, for the purpose of sub-clause i of clause b of subregulation 1 of regulation 7, be the average daily attendance for the preceding year.

(2) Where the average daily attendance for the preceding year for a board in an urban municipality or in a rural school is under 300, the number used for the average daily attendance shall be not less than 30 times the number of open class-rooms as set forth under clauses a and b of subregulation 7 of regulation 10.

9.(1) Where a board operates one or more auxiliary classes or units, the average daily attendance, as determined under regulation 8, shall be increased by adding thereto

- (a) 20 for each braille class for the blind, hard-of-hearing class, home-instruction class, hospital class, oral class for the deaf, orthopaedic class for physically disabled, and sight-saving class,
- (b) 8 for each handicraft class, opportunity class, speech-correction and lip-reading class, and partial class of 4 or more handicapped pupils,
- (c) 2 for each advancement class, discipline class, institutional class, open-air class, and partial class of 2 or 3 handicapped pupils,
- (d) 2 for each home-instruction and orthopaedic unit, and

(e) $\frac{1}{2}$ for each opportunity, sight-saving, and speech-correction unit, but the number of units under class d or e shall not exceed 10.

(2) Where a board operates one or more industrial-arts or home-economics class-rooms, the average daily attendance, as determined under regulation 8, shall be increased for each of those class-rooms by the number set forth in Column 2 in accordance with the average daily attendance in the preceding year set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2
Average Daily Attendance of School	Number to be added
Under 50	1
50 but under 100	2
100 but under 200	3
200 but under 300	4
300 or more	5

(3) Where the pupils of 2 or more schools operated by a board receive instructions in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purposes of subregulation 2.

(4) Where a class-room or unit was in operation for only one term in the preceding year, the average daily attendance shall be increased by one-half of the number calculated under subregulations 1 and 2 respectively.

AMOUNTS OF GRANTS

10.(1) Subject to regulations 11, 12, 14, 15 and 37, the board of a public or separate school in a city, or in a town or village having a population of 2,500 or more, shall be paid a grant of

- (a) \$16 for each pupil of average daily attendance during the preceding year as determined under subregulation 1 of regulation 8 and under regulation 9, and
- (b) an amount calculated by taking a percentage of the approved cost at the rate set forth in column 2 in accordance with the population set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2
Population	Percentage
200,000 or more	16
100,000 to 199,999	17
50,000 to 99,999	20
40,000 to 49,999	21
30,000 to 39,999	22
20,000 to 29,999	23
10,000 to 19,999	24
9,000 to 9,999	25
8,000 to 8,999	26
7,000 to 7,999	27
6,000 to 6,999	28
5,000 to 5,999	30
4,500 to 4,999	32
4,000 to 4,499	35
3,500 to 3,999	38
3,000 to 3,499	41
2,500 to 2,999	44

(2) Subject to subregulations 7 and 8 and to regulations 11, 12, 15 and 37, the board of a larger unit of administration, and all other boards not qualifying for a grant under subregulation 1 or under regulation 14 shall be paid a grant of

(a) \$16 for each pupil of average daily attendance during the preceding year as determined under subregulation 1 of regulation 8 and under regulation 9, and

(b) an amount calculated by taking a percentage of the approved cost at the rate set forth in Column 2 in accordance with the assessment per class-room unit set opposite thereto in Column 1, as follows:

COLUMN 1	COLUMN 2
Assessment per class-room unit	Percentage
\$125,000 or more	40
\$120,000 or more but under \$125,000	42
\$115,000 or more but under \$120,000	44
\$110,000 or more but under \$115,000	46
\$105,000 or more but under \$110,000	48
\$100,000 or more but under \$105,000	50
\$ 95,000 or more but under \$100,000	52
\$ 90,000 or more but under \$ 95,000	54
\$ 85,000 or more but under \$ 90,000	56
\$ 80,000 or more but under \$ 85,000	58
\$ 75,000 or more but under \$ 80,000	60
\$ 70,000 or more but under \$ 75,000	62
\$ 65,000 or more but under \$ 70,000	64
\$ 60,000 or more but under \$ 65,000	66
\$ 55,000 or more but under \$ 60,000	68
\$ 50,000 or more but under \$ 55,000	70
\$ 45,000 or more but under \$ 50,000	72
\$ 40,000 or more but under \$ 45,000	74
\$ 35,000 or more but under \$ 40,000	79
\$ 30,000 or more but under \$ 35,000	84
\$ 25,000 or more but under \$ 30,000	89
under \$25,000	92

(3) In addition to the grant under subregulation 2, a grant of \$300 shall be paid

- (a) to each board in the year it enters a larger unit of administration, and
- (b) to the board of a larger unit of administration for each former school-section or former separate-school area included in the larger unit of administration before the current year.

(4) In addition to the grants under subregulations 1 and 2, the board of a public or separate school shall be paid an additional grant of \$3 per pupil in respect of the increased average daily attendance under subregulation 1 of regulation 9.

(5) Where a school-section or separate-school area is withdrawn from a larger unit of administration during the current year, the grant under subregulation 3 shall not be paid in respect of that section or area.

(6) Where there is no assessment for school purposes, the assessment per class-room unit shall be deemed to be \$125,000.

(7) Where a town or village having a population of 2,500 or more is included in a larger unit of administration, the board shall be paid a grant under subregulation 1.

(8) The number of open class-rooms shall not exceed

- (a) where the average daily attendance for a board in an urban municipality or in a rural school is fewer than 300, the number obtained by dividing the average daily attendance by 33 and allowing an additional room for any remaining fraction, or
- (b) where the average daily attendance for a board in an urban municipality or in a rural school is 300 or more, the number obtained by dividing the average daily attendance by 30 and making no allowance for any remaining fraction.

TRANSFER OF SECTIONS AND AREAS

11.(1) Where the whole of a public-school section, or a separate-school area, is transferred from one board to another, the grant for the former board for the year following the transfer shall be calculated as though there had been no transfer and be paid to the latter board.

(2) Where part of a public-school section or of a larger unit of administration is transferred from one board to another, the grant for the year following the transfer shall be calculated as though there had been no transfer, and

- (a) in the case of public schools, subject to the provisions of sections 29 and 39 of *The Public Schools Act*, or
- (b) in the case of separate schools, subject to an agreement between the boards,

shall be paid to each board in the proportion that the number of pupils in the remaining part and in the part transferred, respectively, bears to the enrolment of pupils on the first school-day of December in the year preceding the transfer.

NEW BOARDS AND BOARDS COMMENCING OPERATION OF A SCHOOL

12.(1) In the year in which a new board is established, other than a board assuming jurisdiction for school purposes of an area previously administered by another board, the average daily attendance and approved cost shall be for the current year, and shall be used for the purposes of this Part until the year following that in which the board has operated a school for a year.

(2) In the year in which a board commences operation of a school, and the board or any former board incorporated therein has not previously operated a school, the average daily attendance and approved cost shall be for the current year, and shall be used for the purposes of this Part until the year following that in which the board has operated the school for a year.

(3) A disbursement included in approved cost under subregulations 1 and 2 for

- (a) capital charges,
- (b) capital outlays from current funds,
- (c) tuition fees paid to another board, or
- (d) transportation,

shall not be included in approved cost for more than one year.

MILK

13. The board of a public or separate school shall be paid a grant equal to 50 per cent of the amount expended in the preceding year for the purchase of milk for consumption by its pupils on school days between 8.45 a.m. and 4.00 p.m., less that portion of any amount contributed for the purchase of milk from any source which is in excess of 50 per cent of the amount so expended.

Boards Appointed under Section 66 of *The Public Schools Act*

14.(1) Where a rural school-section is designated and a board appointed under subsection 1 of section 66 of *The Public Schools Act*, "approved cost" means the total amount of money paid out of current revenue during the preceding year for the operation of the school or schools under the jurisdiction of the board, inclusive of tuition fees paid to any other board but exclusive of capital expenditures and expenditures for text-books, books of reference, milk and rent, and less tuition fees received from any other board.

(2) The board so appointed shall be paid a grant of 50 per cent of the approved cost as defined in subregulation 1, but where the board operates a school in a sanatorium or a hospital, the grant shall be 80 per cent of the instructional salaries paid the preceding year.

(3) Notwithstanding subregulations 1 and 2, where Canada pays Ontario, for the training of disabled or handicapped persons, a portion of the disbursements therefor made by Ontario to a board so appointed, no grant shall be paid under these regulations.

LIMITATION ON GRANTS

15.(1) Except in the case of the board of a larger unit of administration, the grants under this Part shall not exceed the amount by which the cost of operating exceeds the township grant payable under section 91 or 115 of *The Public Schools Act*.

(2) The total of the grants to a board under this Part and under Parts 4, 5 and 6 shall not exceed in any year

- (a) 90 per cent of the cost of operating where the assessment per class-room unit is \$20,000 or more, or
- (b) 95 per cent of the cost of operating where the assessment per class-room unit is less than \$20,000.

PART 2

High Schools, Continuation Schools and Vocational Schools

APPLICATION

16. This Part applies to general legislative grants in respect of high schools, continuation schools and vocational schools.

INTERPRETATION

17.(1) In this Part "approved cost" means for high schools and continuation schools, but subject to subregulation 3,

- (a) payments in respect of principal, interest and other charges due in the current year on debentures issued and capital loans obtained on or after the 1st of January, 1945, for new buildings, additions to buildings, or for equipment, and
- (b) the total of the disbursements made from current funds by a board or on its behalf during the preceding year, except as set forth under regulations 26 and 27, in respect of
 - (i) principal, interest and other charges due in that year on debentures issued and capital loans obtained before the 1st of January, 1945,
 - (ii) transportation of pupils to and from school, but only where their parents or guardians do not contribute directly to the cost of the transportation,
 - (iii) tuition fees paid to another board for pupils attending a high, continuation or vocational school operated by that board and, where subregulation 1 of regulation 25 is applicable, tuition fees with respect to the year preceding the transfer which are owed to the board of any former district transferred to a new district by any other board transferred to that district,
 - (iv) capital outlays for new buildings and additions to buildings,
 - (v) capital outlays for school buses,
 - (vi) capital outlays, in schools already in operation, for power-operated equipment, business machines, typewriters, musical instruments, desks, and gymnasium equipment, used for instructional purposes, and, where the population per municipality is under 3,000, for new heating-equipment, new lighting and new sanitary-conveniences of a modern type, and
 - (vii) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof,

less current-fund receipts as follows:

- (viii) amounts transferred to current funds from capital funds,
- (ix) insurance proceeds,
- (x) proceeds from the sale of capital assets, and
- (xi) refunds and reimbursements connected with disbursements previously included in approved cost.

(2) In this Part

- (a) subject to subregulation 3, "approved cost" means for vocational schools the total of the disbursements made by a board or on its behalf from

- (i) current funds in respect of principal, interest and other charges due in the current year on debentures other than those issued in respect of buildings, additions to buildings, or equipment under sub-clause ii, and
- (ii) current or capital funds in respect of capital outlays for new buildings or additions to buildings, or for equipment,

less current-fund receipts as follows:

- (iii) amounts transferred to current funds from capital funds,
- (iv) insurance proceeds,
- (v) proceeds from the sale of capital assets, and
- (vi) refunds and reimbursements connected with disbursements previously included in approved cost;

(b) "assessment" means

- (i) the assessment of all property rateable for school purposes in each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment roll on which taxes were levied for the preceding year, or where that high- or continuation-school district is in a municipality which forms part of a county for municipal purposes, the amount at which that assessment was equalized; and
- (ii) where moneys are received by the board under section 33 of *The Assessment Act* or clause b of regulation 4 of Ontario Regulations 197/52, the assessment as set forth in sub-clause i together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the rate-payers of the high- or continuation-school district for school purposes, would result in taxes equal to the moneys so received by the board,

but where the assessment under sub-clause i, to be used for a municipality in the calculation of the grant under these regulations, is more than 120 per cent of the assessment under sub-clause i used for that municipality in the preceding year, the assessment of that municipality under sub-clause i means 120 per cent of the latter assessment;

- (c) "assessment per capita" means the quotient obtained by dividing the number representing the assessment by the number representing the population, but where there is no assessment for school purposes, the assessment per capita means an assessment per capita of \$1150;
- (d) "population" means the total population of each municipality within or partly within the high or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment rolls on which taxes for the preceding year were levied, less the number of inmates of public institutions; and
- (e) "population per municipality" means the quotient obtained by dividing the total population of municipalities in whole or in part in the high- or continuation-school district by the number of those municipalities, but where no population is available, the population per municipality means fifty times the average daily attendance.

(3) Except where grants are payable under subregulation 2 of regulation 22, debenture charges and capital outlays from current funds shall form part of the approved cost only in the proportion that the average daily attendance of all pupils other than pupils from other high-school districts attending the schools

under the jurisdiction of a board, bears to the total average daily attendance in those schools.

AVERAGE DAILY ATTENDANCE

18.(1) Subject to subregulation 2, "average daily attendance" for the purposes of the grant to a board under subregulation 1 of regulation 24 means average daily attendance of pupils for the preceding year but does not include pupils from another high- or continuation-school district.

(2) Where in the high schools or continuation schools of a board the average daily attendance of pupils for the preceding year including pupils from another high- or continuation school district is under 400, "average daily attendance" for the purposes of regulation 24 means the greater of

- (a) the average daily attendance, and
- (b) the number of teachers employed in the schools throughout December of the preceding year multiplied by 20,

less the average daily attendance of pupils from another high- or continuation-school district.

(3) Under clause b of subregulation 2 the number of teachers shall not

- (a) exceed 20, or one for each 18 pupils or fraction thereof of the average daily attendance, whichever is the lesser, or
- (b) be calculated at less than 2 in respect of a school on an island or in a territorial district.

19.(1) Where the board operates one or more departments of agriculture, the average daily attendance, as provided in regulation 18, shall be increased for each department by the number set forth in Column 2 in accordance with the average daily attendance in the preceding year set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2
Average Daily Attendance of School	Number to be added
Under 100	10
100 but under 200	15
200 but under 300	20
300 or more	25

(2) Where the board operates one or more industrial-arts or home-economics class-rooms, the average daily attendance, as provided in regulation 18, shall be increased for each of those class-rooms by the number set forth in Column 2 in accordance with the average daily attendance in the preceding year set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2
Average Daily Attendance of School	Number to be added
Under 50	1
50 but under 100	2
100 but under 200	3
200 but under 300	4
300 or more	5

(3) Where the pupils of 2 or more schools operated by a board receive instruction in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purpose of subregulation 2.

(4) Where the board operates one or more home-instruction units, the average daily attendance, as provided in regulation 18, shall be increased for each of those units by 2.

(5) Where a department, class-room or unit was in operation for only one term in the preceding year, the average daily attendance shall be increased by one-half of the number calculated under subregulations 1 and 2 respectively.

AMOUNT ON GRANTS

20. The board of a continuation school shall be paid a grant of

- (a) 75 per cent of the approved cost where the school is in a territorial district or on an island, or
- (b) 50 per cent of the approved cost where the school is situated elsewhere.

21.(1) Subject to subregulations 2 and 3, and to regulations 26, 27, 28 and 37, the board of a high-school district which operates a school shall be paid a grant of a percentage of the approved cost as set forth in Columns 2, 3 or 5, as the case may be, in accordance with the population per municipality set opposite thereto in Column 1, and the board of a high-school district which does not operate a school shall be paid a grant of a percentage of the approved cost as set forth in Column 4, in accordance with the population per municipality set opposite thereto in Column 1 as follows:

COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4	COLUMN 5
Population per municipality	The board of a city, separated town or other urban municipality in a county	The board of an urban municipality in a territorial district	The board of a district not operating a school	The board of a high-school district consisting of a township or of all or parts of two or more municipalities, not including a city
100,000 or more	15	20	20	30
60,000 or more but under 100,000	20	25	25	30
30,000 or more but under 60,000	25	30	30	30
20,000 or more but under 30,000	30	35	35	35
15,000 or more but under 20,000	35	40	40	40
10,000 or more but under 15,000	40	45	45	50
8,000 or more but under 10,000	45	50	50	60
6,000 or more but under 8,000	45	55	55	65
4,000 or more but under 6,000	50	65	60	70
1,500 or more but under 4,000	50	70	65	75

(2) Where the population per municipality is under 1,500 and the assessment per capita is \$550 or more, the percentages under Columns 2, 3, 4 and 5 of subregulation 1 shall be 50, 75, 65 and 80, respectively.

(3) Where the population per municipality is under 1,500 and the assessment per capita is under \$550, the percentages under Columns 2, 3, 4 and 5 of subregulation 1 shall be 50, 80, 65 and 85, respectively.

22.(1) Subject to subregulations 2, 3 and 4, and to regulations 26 and 27, the board of a vocational school shall be paid a grant of a percentage of the approved cost in accordance with regulation 21.

(2) Where an existing agreement was entered into before the 1st of July, 1944, between a board and the Minister with respect to the payment of grants on debenture instalments, or disbursements for buildings and equipment, the percentage set forth in the agreement shall apply.

(3) Where Canada pays Ontario a portion of the disbursements for a vocational school, the percentage applicable to the board of the vocational school shall be 50 in respect of those disbursements.

(4) Where there are disbursements from current funds for

- (a) equipment for shops,
- (b) power-operated equipment,
- (c) typewriters and business machines,
- (d) musical instruments,
- (e) gymnasium equipment, or
- (f) desks,

for instructional purposes, the percentage applicable to the board of the vocational school shall be 50 in respect of those disbursements.

23. In addition to the grant under regulation 21, the board of a high school that operates a school within a high-school district during the current year shall be paid

- (a) a grant of \$100 for each rural school-section that is completely within the high-school district, and
- (b) where there is a township school-area in the high-school district, a grant of \$100 for each former rural school-section that is completely within the high-school district.

24.(1) In addition to the grants under regulations 20, 21, 22 and 23, and subject to subregulations 2 and 3, and to regulations 26, 27 and 28, the board of a high, continuation or vocational school shall, for each pupil in average daily attendance during the preceding year, be paid a grant as set forth in Column 2, 3, 4, 5, 6 or 7, as the case may be, in accordance with the assessment per capita set opposite thereto in Column 1 as follows:

ASSESSMENT PER CAPITA	HIGH SCHOOLS					CON- TINUATION SCHOOLS	VOCA- TIONAL SCHOOLS
	Column 1	Column 2	Column 3	Column 4	Column 5	Column 6	Column 7
		Boards in urban muni- cipalities having a population per muni- cipality of 20,000 or more	Boards in urban muni- cipalities having a population per muni- cipality of 10,000 or more but under 20,000	Boards in urban muni- cipalities having a population per muni- cipality under 10,000	Boards of high- school districts including the whole or part of one or more townships each having a population under 25,000, but not including a city

under \$200		\$120	\$130	\$140	\$140	\$100	\$150

(2) Where the average daily attendance in a vocational school is under 500, the amount set forth in Column 7 of subregulation 1 shall be increased by \$20 for each of the first 200 pupils.

(3) The grant under subregulations 1 and 2 shall not exceed an amount equal to 120 per cent of the instructional salaries paid in the preceding year.

TRANSFER OF DISTRICTS

25.(1) Where the whole of a high- or continuation-school district is transferred from one board to another, the grant for the former board for the year of the transfer shall be calculated as though there had been no transfer and be paid to the latter board.

(2) Where part of a high- or continuation-school district is transferred from one board to another, the grant for the former board for the year of the transfer shall

- (a) be calculated as though there had been no transfer, and
- (b) be paid to each board in the proportion that the number of pupils in the remaining part and in the part transferred, respectively, bears to the enrolment of pupils on the first school-day of December in the year preceding the transfer.

SPECIAL HIGH-SCHOOL DISTRICTS

26.(1) Subject to regulation 25, where a high-school district includes a city and one or more townships, or a city and 16 or more school sections,

- (a) the average daily attendance of pupils, excluding those from other high- or continuation school districts, and the approved cost, excluding transportation, shall be divided between the city and the remainder of the district in the same proportion as the enrolment of resident pupils on the first school-day in October of the same year was divided, and
- (b) the approved cost of transportation shall be added to the approved cost apportioned to the remainder of the district,

and the grants under this Part, excluding any increased grant under subregulation 2 of regulation 24, shall then be calculated as if a board operating a school existed for each of the 2 portions of the district and the total thereof paid to the board of the district.

(2) For the purpose of applying the provisions of subregulation 2 of regulation 24, the average daily attendance shall not be divided between the city and the remainder of the district as provided in clause a of subregulation 1, but the grant of \$20 for each of the first 200 pupils shall be added to the grants calculated under subregulation 1 and be paid to the board of the district.

NEW BOARDS AND BOARDS COMMENCING OPERATION OF A SCHOOL

27.(1) In the year in which a new high- or continuation-school district is established which includes a municipality not previously in another secondary-school district, the average daily attendance and approved cost shall be for the current year, and shall be used for the purposes of this Part until the year following that in which the board of the former district has operated a school for a year.

(2) In the year in which the board of a high-school district commences operation of a school, and the board or any former board whose district was included in that district has not previously operated a school having an average daily attendance of 75 or more pupils, the average daily attendance and ap-

proved cost shall be for the current year, and shall be used for the purposes of this Part until the year following that in which the board has operated the school for a year.

(3) A disbursement included in approved cost under subregulations 1 and 2 for

- (a) capital charges,
- (b) capital outlays from current funds, or
- (c) tuition fees paid to another board,

shall not be included in approved cost for more than one year.

Boards Appointed Under Subsection 6 of Section 5 of The High Schools Act

28.(1) Where a high-school district is designated and a board appointed under subsection 6 of section 5 of *The High Schools Act*, "approved cost" means the total amount of money paid out of current revenue during the preceding year for the operation of the school or schools under the jurisdiction of the board, inclusive of tuition fees paid to any other board but exclusive of capital expenditures and expenditures for text-books and rent, and less tuition fees received from any other board.

(2) The board so appointed shall be paid a grant of 50 per cent of the approved cost as defined in subregulation 1.

PART 3

Night Schools

APPLICATION

29. This Part applies to general legislative grants in respect of night schools in high schools, continuation schools and vocational schools.

AMOUNT OF GRANTS

30. The board of a continuation school operating a night school shall be paid a grant on the total salaries of the teaching staff of the night school paid in the preceding year at the percentage applicable under regulation 20.

31.(1) Subject to subregulation 2, the board of a high school operating a night school shall be paid a grant on the total salaries of the teaching staff of the night school paid in the preceding year at the percentage applicable under regulation 21.

(2) Where the board also operates a vocational school, the percentage applicable shall be 50.

PART 4

Grants for Text-Books and Reference Books

APPLICATION

32. This Part applies to grants for text-books and reference books bought by a board.

AMOUNT OF GRANTS

33. The board of a public or separate school shall be paid a grant equal to the amount expended in the preceding year for text-books prescribed under clause i of subsection 1 of section 4 of the Act, not exceeding an amount computed by multiplying \$3 by the average daily attendance in grades I to X, both inclusive, during the preceding year.

34. The board of a public or separate school, except a board of an urban municipality with a population of 2,500 or more or of a rural municipality with a population of 25,000 or more, shall be paid a grant equal to the amount expended in the preceding year for books of reference prescribed under clause i of subsection 1 of section 4 of the Act, not exceeding an amount computed by multiplying \$1 by the average daily attendance in grades I to X, both inclusive, during the preceding year.

35. The board of a high, continuation or vocational school shall be paid a grant equal to the amount expended in the preceding year for text-books prescribed under clause i of subsection 1 of section 4 of the Act, not exceeding an amount computed by multiplying \$3 by the average daily attendance of pupils in grades IX and X during the preceding year, but excluding from the computation those pupils attending from other high- or continuation-school districts.

PART 5

Annexation Grants

APPLICATION

36. This Part applies to grants following annexation.

AMOUNT OF GRANTS

37.(1) Where the whole or part of a municipality is annexed to an urban municipality on or after the 1st of January, 1949, and at the date of annexation there are outstanding debentures for one or more school buildings in that part, the public-, separate- or high-school board of the urban municipality shall, except in the year of annexation, be paid a grant on the debenture instalments due and paid in the preceding year to the extent that the payments on the debentures would have been eligible for a grant if the annexation had not taken place.

(2) The amount of the grant under subregulation 1 shall be calculated at the rate applicable to

(a) the board of the school section, separate school, or high-school district, in the annexed area for the year preceding annexation, or

(b) the board of the urban municipality for the year preceding annexation,

whichever rate is the greater.

38.(1) Where on or after the 1st of January, 1949, an urban municipality having a population in the year preceding annexation of 10,000 or more, annexes an area in which the combined average daily attendance of public-, separate- and secondary-school pupils resident in that area exceeds 20 per cent of the combined average daily attendance of public-, separate- and secondary-school pupils resident in the urban municipality, there shall be paid to each board of the urban municipality an annexation grant per pupil as set forth in sub-regulations 3, 4 and 5.

(2) In the first year following the annexation, the grants shall be calculated and paid as set forth in regulations 11 and 25.

(3) The annexation grant per pupil shall be the amount by which the grant per pupil paid under these regulations to the board or boards of the urban municipality in the year of annexation is exceeded by the grant per pupil paid in the same year in the annexed area, ascertained by dividing the grant paid in each case, exclusive of grants on debentures, on capital outlays from current funds, and for transportation, by the average daily attendance of resident pupils.

(4) In the second, third, fourth and fifth years following the annexation, the annexation grant per pupil shall be paid on the excess of the average daily attendance of resident pupils of the board of the urban municipality subsequent to annexation over the average daily attendance of the resident pupils of the board of the urban municipality in the year preceding annexation

(5) In the sixth year following the annexation, the annexation grant per pupil shall be reduced by 20 per cent, and in each year thereafter by an additional 20 per cent for each additional year.

PART 6

Grants for Instruction in Industrial Arts or Home Economics to Non-resident Pupils

39. Where instruction in industrial arts or home economics was given in the preceding year to pupils admitted free from a school under the jurisdiction of another board, a grant of \$7.50 for each pupil so admitted shall be paid to the board giving the instruction for each term in which the pupil attended.

PART 7

Revocation of Regulations

40. The following are revoked:

- (a) regulations 12 to 15, both inclusive, of Regulations 36,
 - (b) regulations 14 and 15 of Regulations 37,
 - (c) regulations 10 to 13, both inclusive, of Regulations 38,
 - (d) regulations 19 to 28, both inclusive, of Regulations 44,
 - (e) regulations 19 to 21, both inclusive, of Regulations 50,
 - (f) regulations 25 to 28, both inclusive, of Regulations 51,
 - (g) regulations 29 to 32, both inclusive, of Regulations 52,
 - (h) regulations 25 to 28, both inclusive, of Regulations 53,
 - (i) regulations 20 to 22, both inclusive, of Regulations 54,
 - (j) regulations 19 to 21, both inclusive, of Regulations 55,
 - (k) regulations 21 to 23, both inclusive, of Regulations 56,
 - (l) regulations 26 to 29, both inclusive, of Regulations 57, and
 - (m) Regulations 68,
- of Consolidated Regulations of Ontario 1950, and
- (n) Ontario Regulations 34/51,
 - (o) regulation 6 of Ontario Regulations 319/51,
 - (p) regulations 1 and 5 of Ontario Regulations 133/52, and
 - (q) Ontario Regulations 262/52.

Toronto 2,

Minister of Education
W. J. DUNLOP

X—DESTINATION OF PUPILS WHO LEFT ONTARIO ELEMENTARY AND SECONDARY SCHOOLS DURING OR AT THE END OF THE SCHOOL YEAR 1952-53

63,462 Pupils left Elementary and Secondary Schools

9,609 (15%) went on to further training

3,007 (31%) to College or University
1,426 (15%) to School of Nursing
1,403 (15%) to Teachers' Training College
1,384 (14%) to Business College
986 (10%) to Private Academic School
558 (6%) to Provincial Technical Institute
189 (2%) to Private Trade School
656 (7%) Elsewhere (a)

(a) Pre-Teachers' College, Armed Services, and Apprenticeships of various kinds.

10,074 (16%) left Ontario

43,779 (69%) retired from school life

9,288 (21%) to Commerce and Finance
6,759 (15%) to Industry
5,675 (13%) to Services (b)
5,541 (13%) to Agriculture
5,521 (13%) to Unskilled Labour
4,382 (10%) Miscellaneous Occupations
2,863 (7%) To Trades and Crafts
1,898 (4%) To Transportation and Communication
1,852 (4%) Unemployed and Unknown

(b) Services includes personal, public, and home help (Girls).

Of those who retired from school life, 5,521 held Graduation Diplomas, and 1,023 held Honour Graduation Diplomas.

PUPIL RETIREMENT FROM SCHOOL LIFE

Retrospective Statistics

RETROSPECTIVE TABLES

1. PROVINCIAL POPULATION AND SCHOOL ENROLMENT

Note: Population and Exemptions apply to the calendar year, while Pupil Enrolment is based on the school year.
(For example, day school enrolment of 1940-41 is calculated as a percentage of the population of the calendar year 1940)

Year	Provincial Population	Day Enrolment in Provincial School System	Percentage of Population in Day Schools	Day School Enrolment Classified as between		Compulsory Age Enrolment (8-15 incl.)		Compulsory Adolescent Age Enrolment (14-15 incl.)		Adolescent Age Exemptions			Adolescent Age Exemptions as Percentage of Compulsory Adolescent Age Enrolment
				Elementary	Secondary	Number	Percentage of Day Enrolment	Number	Percentage of Day Enrolment	By Home Permit	By Employment Certificate	Total	
1940-41...	3,747,000	664,373	17.7	81.8	18.2	482,094	72.6	103,509	15.6	1,885	4,871	6,756	6.5

Source of Population—Canada Year Book.

Commencing with 1945 the enrolment is that of the school year. Previous to that, the figure for the last school day in May.

LORNE PARK PUBLIC LIBRARY, TORONTO

II—IMMIGRATION TO CANADA, OF CHILDREN UNDER 18 YEARS OF AGE, BY PROVINCE OF INTENDED DESTINATION

Over 175,000 immigrants under 18 years of age entered Canada in the past 5 years. Over 50% came to Ontario. 70% of these immigrants are not over 10 years of age. The last 3 years have shown the heaviest influx. The distribution by province follows:

Calendar Year	Totals	Nfld.	N.S.	P.E.I.	N.B.	Que.	Ont.	Man.	Sask.	Alta.	B.C.	Yukon and N.W.T.
1953.....	44,174	116	570	68	291	7,368	24,307	2,187	1,052	4,581	3,620	14
1952.....	44,972	131	716	85	251	8,112	24,137	1,946	1,117	4,107	4,356	14
1951.....	45,334	59	447	47	374	8,675	25,088	1,989	1,069	3,876	3,707	3
1950.....	19,040	38	317	43	159	2,780	10,179	1,014	807	1,981	1,715	7
1949.....	23,216	18	332	62	178	3,868	11,900	1,464	932	2,533	1,928	1
Totals.....	176,736	362	2,381	305	1,253	30,803	95,611	8,600	4,977	17,078	15,326	39

The above data was supplied by the Statistics Branch of the Department of Citizenship and Immigration—Courtesy Dominion Bureau of Statistics.

III—NET NUMBER OF CHILDREN TRANSFERRING IN OR OUT OF PROVINCES 1949-1953 ON BASIS OF 2.3 CHILDREN PER FAMILY

These figures are based on the monthly reports of the Family Allowances Division of the Department of National Health and Welfare. These reports give the numbers of families. The number of families has been multiplied by 2.3—the average size of a Canadian family, although the size of families varies among the provinces as follows: Nfld.—2.96; N.S.—2.43; Que.—2.67; Man.—2.18; Alta.—2.20; P.E.I.—2.68; N.B.—2.74; Ont.—2.09; Sask.—2.27; B.C.—2.03. These averages come from Family Allowance Records: Data is compiled for a census year, June to May.

Census Year	Nfld.	N.S.	P.E.I.	N.B.	Que.	Ont.	Man.	Sask.	Alta.	B.C.
1953-54(a).....	-81	-1,596	-405	-1,357	-1,426	+5,131	-1,205	-527	+777	+2,489
1952-53.....	-9	-1,053	-343	-1,139	-1,803	+2,884	-1,481	-2,010	+1,888	+3,236
1951-52.....	-490	-1,382	-400	-1,730	-389	+5,863	-1,658	-3,949	+101	+3,744
1950-51.....	-743	-1,569	-242	-2,703	-626	+7,970	-1,327	-3,271	+1,272	+1,162
1949-50.....	-508	-807	+21	-1,189	-145	+2,378	-610	-3,570	+2,647	+1,201

(a) 10 months' period. + In — Out. Ontario, Alberta and British Columbia show a continuous net influx.—Courtesy Dominion Bureau of Statistics.

1953	8,000	43	10,650	16,895,000.00	13,021,000.00
Totals	35,600	208	48,180	\$ 65,853,000.00	\$ 58,554,000.00

Notes: 1. Enrolment increases are calculated on September enrolments in each year.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil places lost as a result of the following factors: shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

POST-WAR SCHOOL BUILDING CONSTRUCTION

The effectiveness of the school building programme in Ontario is indicated below in school terms, i.e., new pupil places provided by the construction of new schools and additions for each year from 1945 to 1953. The total for nine years is 206,430 pupil places in elementary and 48,180 in secondary schools. This includes replacements and additional accommodation.

Because of war conditions, the general programme of Summer Courses was discontinued from 1941 to 1944, inclusive. During that period, the following courses were offered:

1942 —Summer Course in Defence Training, Health and Physical Education—925.

1942-43—Winter Course in Manual Training, Type A—40.

1944 —Summer Course in Physical and Health Education and Cadet Training—313.

1944 —Refresher Course in Medieval History given during Christmas vacation—45.

1944-45—Winter Course in Manual Training, Type A—48.

(a)—Formerly Art and Crafts. (b)—Formerly Vocational Guidance.

(c)—Formerly Industrial Arts and Crafts. (d)—Formerly Physical Education.

(e)—Type B.

XVIII—PUPIL TRANSPORTATION

During the school year 1953-54, the apparently large increase in the number of routes to elementary schools, was due to a new regulation requiring all routes from closed schools to have Departmental, rather than inspectoral, approval. The average cost per pupil increased seven cents per day, and the cost per mile increased by two cents.

School Boards continue to employ contractors rather than own and operate buses. Less than 2% of the school buses are owned by School Boards.

An Ontario School Bus Operators' Association has been formed. This is an independent body which is interested in uniform standards for school buses, in safety education and in the protection of contracts.

Board Supplying the Transportation	Number of Routes	Number of Pupils	Daily Miles	ACTUAL COST				APPROVED COST			
				Total Amount	Per Day	Per Pupil-Day	Per Mile	Total Amount	Per Day	Per Pupil-Day	Per Mile

**TABLE 19—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE
TERRITORIAL DISTRICTS**

The Province of Ontario provided transportation assistance to 558 students during the school year 1953-1954. \$11,370.45 was paid to 331 students residing east of Sault Ste. Marie, and 227 students residing west of Sault Ste. Marie. Of those assisted, 172 were in the first year, 148 in the second year, 132 in the third year, 95 in the fourth year, 8 in the fifth year and 3 in the sixth year.

The institutions attended by these students were as follows:

University of Toronto.....	175
Queen's University.....	169

WAWA PUBLIC SCHOOL

TABLE 37—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION PROVINCE OF ONTARIO

As of September 1st, 1954

The year or years in which the latest revision was printed are shown in each case.

A. COURSES OF STUDY

Junior Kindergarten to Grade VIII

1. Programme for Junior and Senior Kindergarten and Kindergarten Primary Classes of the Public and Separate Schools, 1944, 1946, 1950, 1954.
2. Programmes of Studies for Grades I to VI of the Public and Separate Schools, 1942, 1947, 1949, 1952, 1954.
3. Programme for Religious Education in the Public Schools, 1949.
4. Curriculum I. 1, Intermediate Division of Courses for Experimental Use, 1951.
5. Circular I. 3, Guidance in the Intermediate Division, 1950.
6. Curriculum I. 4, Supplementary Reading List for Grades VII to X, 1951.
7. Curriculum I. 5, Physical Education, Outline of Courses for Experimental Use, Grades VII to X, 1952.

B. REVISION OF CURRICULUM

8. Curriculum: 1, Revision of Curriculum, December 10, 1949.
9. Curriculum: 2, Promotion from Grade VIII and Admission to Grade IX, March 30, 1950.
10. Curriculum: 3, Establishment of Local Committees on Curriculum, May 15, 1950.
11. Curriculum: 7, Memorandum re Curriculum, Progress of the Revision, 1952.

C. COURSES OF STUDY

Grades IX to XIII

12. Circular H.S. 1, Requirements for Certificates and Diplomas for 1954-55. Outlines subjects of various courses leading to Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas.
13. Circular H.S. 1B, List of Publications re Courses of Study, Grades IX to XIII, 1954-55. Lists Circular Numbers and Titles of the various Courses of Study.
14. Curriculum I. 1, Intermediate Division (Grades VII to X), Outlines of Courses for Experimental use, 1951.
15. Courses in the various subjects of Grades XI, XII, and XIII. These should be requested by subject and grade.
16. Circular 46, Courses of Study and Examinations in Schools attended by French-speaking Pupils, 1952.
17. Circular 14, Text-books Authorized and Recommended for 1954-55.
18. Circular H.S. 58, Prescriptions in English and Modern Languages for Grade XIII Departmental Examinations, 1955.
19. Circular 46 (a), Prescriptions in French for French-speaking Pupils for Grade XIII Departmental Examinations, 1955.

D. TEACHING AIDS

Art

20. Art and Crafts in the Schools of Ontario, 1949.
21. Art Education in the Kindergarten, 1952.
22. Art Education for Slow Learners, 1953.
23. Art Education during Adolescence, 1954.

Library

24. Teachers' Library Catalogue.

Music

25. Circular Mus. 1, Training the Voices of Children and Adolescents, 1944.
26. Circular Mus. 2, Music in Rural Schools, 1946.
27. Circular Mus. 3, School Music Festivals, 1946.
28. Circular Mus. 4, Introducing Part Singing with Adolescent Boys.
29. Circular Mus. 5, Memorandum relating to The Teaching of Music in Elementary and Secondary Schools, 1946.
30. Circular Mus. 10, Operettas, Music Plays and Cantatas.
31. Music Appreciation Through Listening, for Elementary Schools, 1950, 1953.

Radio

32. School Radio Broadcasts. October, April, 1954-55.

Religious Exercises, Religious Education and Religious Instructions

33. List of Bible Readings for Schools, 1944, 1949.
34. Programme for Religious Education in the Public Schools, 1949.

E. ADDITIONAL PAMPHLETS

35. Visual Education Catalogue.
36. Teaching in the Elementary Schools of Ontario, 1954.
37. Teaching Try-Out Experience, 1950.
38. Calendar of the Teachers' College, 1954.
39. Calendar of the University of Ottawa Teacher's College, 1954.
40. Calendar of the Primary Specialist Course, 1954.

F. SCHOOL ACTS

41. The Department of Education Act, 1954.
42. The Public Schools Act.
43. The Schools Administration Act, 1954.
44. The Secondary Schools and Boards of Education Act, 1954.
45. The Separate Schools Act.
46. The Ontario School Trustees' Council Act, 1953.
47. The Teachers' Superannuation Act.
48. The Teaching Profession Act.
49. The Grade Schools Regulation Act.
50. The Public Libraries Act.

G. REGULATIONS

51. Public and Separate Schools.
52. High Schools and Collegiate Institutes.
53. Continuation Schools.
54. Vocational Schools.
55. Public School Inspectors' Certificates.
56. Supervisory Officers.
57. Scholarships for Study Outside Ontario.
58. School Attendance.
59. General Legislative Grants.
60. Grants for Non-Profit Camps.
61. Assistance in the Cost of Educating Retarded Children.
62. Programmes of Recreation.
63. Public Libraries.

Terminology

Assessment—*The valuation placed upon property for tax levy purposes. The County Council generally makes an equalization annually of local assessment figures, and this equalized figure is used in the computation of Legislative grants to schools.*

Attendance Efficiency—*The percentage relationship of the actual days attended to the perfect aggregate.*

Auxiliary Classes—*These are provided for gifted, socially or educationally maladjusted, retarded, or physically-handicapped pupils.*

Capital Charges—*Debenture instalments, or sinking fund deposits, made on debt incurred for school buildings and equipment.*

Compulsory School Age—*Children 8 to 14 must attend full time; children from 5 to 8, if enrolled, must attend full time to the end of the school term for which they are enrolled. Adolescents, 14 to 16, who have not attained University matriculation standing must attend full time; those exempted on the plea of circumstances compelling them to go to work must attend part-time (400 hours a year) in municipalities where part-time courses are provided. Urban municipalities with a population of 5,000 and over, are required to provide part-time courses.*

Consolidated School—*An amalgamation of two or more rural schools, or of rural schools with a village or town school, either for the purpose of strengthening the means of school support where the original schools were small or poor, or for the purpose of providing a graded school and other advantages, such as conveyances.*

Correspondence Courses—*Are a substitute for regular school for those who are unable to attend because of age, health or distance. They cover Grades I to XIII in English and Grades I to VIII Bilingual and are based on the new Course of Studies. The maximum enrolment for the school year 1953-54 was 2,053, and the average enrolment was 1,651. Lessons are marked by a Departmental staff. These courses are entirely free.*

Cost per Pupil-Day—*The cost of educating one pupil of actual attendance, for one day. It is found by dividing the total cost of education of the group of pupils concerned by the actual aggregate attendance of this group for the period under consideration.*

County Pupil—*A secondary school pupil living within the County but outside any secondary school district.*

District—*The eleven defined areas of Northern Ontario which do not constitute municipal units for any purpose. With the exception of Parry Sound and Muskoka, these areas lie north of the French River and Lake Nipissing.*

Enrolment (Net)—*The number of pupils who have attended school during the year, excluding all duplications.*

Free School Age—*The Public Elementary Schools are free to all resident pupils between the ages of 5 and 21 whose parents are public school supporters. The Separate Schools are free to the children of the separate school supporters. The Secondary Schools are free to all except non-resident pupils.*

General Maintenance—*Ordinary, current expense, as opposed to capital outlays and debenture charges.*

Improvement District—*Shall be deemed to be for all purposes of every Act a township municipality, a village municipality, or a town municipality, as may be designated from time to time by the Municipal Board.*

Inspectorate—*The area under the supervision of a local Department representative.*

Kindergarten-Primary—*A class combining the work of the kindergarten and Grade I.*

Non-Resident Pupil—*A secondary school pupil who is neither a resident nor a County pupil.*

Public School Section—*A subdivision of a township for elementary school purposes, containing a minimum of 50 children between the ages of 5 and 21, and having a maximum area of four square miles.*

Resident Pupil—*A secondary school pupil living within the secondary school district.*

School—*Provincially controlled schools may be classified as:*

I. Elementary—*Those doing the work of the first eight grades. A few have Fifth Classes (see above).*

- (a) **Public**—*The first school established in any school section or urban municipality, and supported by the ratepayers.*
- (b) **R.C. Separate**—*For the children of Roman Catholics.*
- (c) **Protestant Separate**—*For the children of Protestants in centres preponderantly Roman Catholic.*

II. Secondary—*Those doing the work of Grades IX to University Matriculation.*

(a) **Academic:**

1. Collegiate Institutes.

2. High Schools.

3. Continuation Schools.

These schools are differentiated by minimum staff requirements. Continuation Schools are located mostly in villages or rural areas. Academic courses are designed to lead to Universities and Teacher-Taaining Schools.

(b) **Vocational:**

1. Technical High Schools.

2. Commercial High Schools.

In the smaller centres academic and vocational departments are frequently found in the one building, which is then called a composite school. Vocational courses are designed to lead to industry, trade and commerce.

III. Provincial Technical Institutes

These offer courses designed to train technicians for positions in industry which are supplementary to, but not in the field of, professional engineering. The admission requirement is secondary school graduation, and the courses are of two or three years' duration. The Institutes are owned and administered directly by the Department of Education under the Vocational Education Act, Part II, but close co-operation with industry is maintained through advisory committees, the members of which are appointed by the Minister.

IV. Professional Training Schools

(a) *Ontario College of Education (University of Toronto)—for the training of secondary school teachers.*

(b) *Provincial Teachers' Colleges—for the training of elementary school teachers.*

V. Special Schools:

Ontario School for the Blind, Brantford.

Ontario School for the Deaf, Belleville.

School Car—*A school on wheels, carrying education and social betterment to small communities scattered along the railway lines of northern Ontario. There are six of these cars at present, and the length of route ranges from 83 to 221 miles. The route is covered in four to six weeks, and each car is "spotted" for about a week at a time. Problems are solved, work is outlined for the next period, and daily problems of life are discussed. The present enrolment approximates 160, and comprises 10 nationalities. The Department pays all operating costs.*

School Year—*The school year consists of two terms, September 1 to December 22, and January 3 to June 29. In addition to the intervals between these terms there is a vacation of one week following Easter. In this Report statistics cover the school year where possible. Financial data remain on the calendar year basis.*

Secondary School District—*The area over which the secondary school board exercises supervision. Each city and separated town is a secondary school district. The County Council may establish a secondary school district composed of an urban municipality only, a group of school sections only, or a combination of both. In territorial districts of Northern Ontario any municipal council or councils may establish the whole or any part of the municipality or municipalities as a secondary school district, with the approval of the Minister of Education.*

Township School Area—*A unit of school administration comprising two or more contiguous rural school sections in the same township or in adjacent townships, or comprising such rural sections along with one or more adjacent villages or towns. See Cir. Elem. 15, "The Township School Area in Ontario."*
